

MANY VIOLENT TEXAS DEATHS

TEN KILLED SPANISH ELECTION RIOTS

SUNDAY VOTING IN SPAIN ACCOMPANIED BY SEVERE FIGHTING

TEN KILLED IN REPUBLICAN VICTORY THROUGHOUT SPAIN SUNDAY

MADRID, June 29.—(AP)—Despite strict censorship on dispatches telling of election disturbances it was learned today that ten persons were killed in uprisings attending yesterday's voting.

Major disturbances in the balloting, which, on the basis of incomplete returns, showed a victory for the conservative republican-socialist bloc, occurred at Malaga, Seville and Plevia, near Guadalajara.

At Malaga three deaths were reported and nine were wounded. It was found necessary to declare martial law because of a general strike called in protest against the death of a workman in an election brawl.

Reports came from Seville of new agitation at Tablada airfield where reinforcements ordered out by Gen. Sanjurjo again assumed control. Last Saturday the field was taken over from its command by a column of troops sent out by the general from Seville.

Provisional official of the Spanish republic characterized partial election returns as the death knell of monarchist efforts to return King Alfonso or any other claimant to the Spanish throne.

"The voting in towns and cities

PLAN ADVANCED TO PERMIT EPISCOPAL CLERGYMEN WED PERSONS WHO ARE DIVORCED

NEW YORK, June 29.—(AP)—Marriage of divorced persons in Episcopal churches with use of the book of common prayer is favored in a revised proposal by a commission offered to authorize Episcopal clergymen to marry divorced persons. That plan barred the use of church and the regular prayer book. The revised proposal, published today, would give clergymen the right to officiate. A minority report suggests marriage by a clergyman in his discretion if there already has been a civil marriage.

Under the majority plan, one year must elapse after divorce before permission to marry can be filed. An ecclesiastical court, appointed by the bishop must then pass on the fitness of the persons to be married.

CONFERENCES OVER DEBT MORATORIUM CONTINUE MONDAY

NEGOTIATIONS BETWEEN FRANCE AND AMERICA REACHED TENSE POINT

By The Associated Press. The situation was described as most tense in Paris today after Secretary Mellon again conferred with Premier Laval without reaching an agreement on the Hoover war debt moratorium proposal.

Another meeting was scheduled for this evening. Before it convenes M. Laval will have talked over the problems raised by the proposal with his entire cabinet, which he summoned into session. In Berlin Chancellor Bruening and Foreign Minister Curtius received an invitation to an informal conference with Premier Mussolini in Rome. They accepted immediately. The date for the meeting has not yet been fixed.

The Belgian cabinet considered a rough draft of its reply to the Hoover plan. The reply will be cabled to Washington tonight. Former Premier Herriot of France, speaking at a meeting of radical socialists protested against summary proceedings of which we have been the victims."

WASHINGTON, June 29.—(AP)—Acting Secretary Castle of the department announced today that the United States would accept no counter proposal to President Hoover's debt moratorium plan which did not fall within

AROUND THE WORLD FLIERS FACE MILES OF OCEAN FLIGHT

LEAVE SIBERIAN CITY ON 2100 MILE WATER HOP FOR NOME, ALASKA

KHABAROVSK, Siberia, June 29.—(AP)—On the last long hop of their aerial dash around the world, Wiley Post and Harold Gatty left here at 5 p. m., Shanghai time (3 a. m. C. S. T.) today, hoping to reach Nome, Alaska, 2,100 miles distant, without a stop.

Behind them lay 9,250 miles of land and sea, over which they had flown in four days, 21 hours and 34 minutes. Ahead of them was approximately 5,750 miles, including the hazardous trek across the Straits of Tartary, the Sea of Okhotsk, the Karakutka peninsula and the Bering Sea which stood between them and Nome.

Far ahead of their ten-day schedule when they encountered their first trouble at Blagoveshchensk, the stop immediately preceded the Khabarovsk landing. Post and Gatty had experienced two costly delays when they left here.

Their monoplane Winnie Mae stuck in a mud hole at Blagoveshchensk and it took 1-1/2 hours to get it out and ready to start. Here they spent 26-1/2 precious hours overhauling their plane, resting and waiting for advantageous weather. Their takeoff here marked the beginning of their seventh day.

Weather reports along their route varied. The Kamchatka Peninsula area was reported to be both clear and stormy. The Bering Sea was reported clear but Japanese advices said a storm was forming in the Japan Sea and moving in a general direction toward their path.

Post and Gatty believed weather conditions were satisfactory, however, and left suddenly, expecting for smooth flight straight to Nome after working the better part of a night and a day on their plane.

Both Russians and foreigners joined in giving them a cordial send-off. A large crowd was at the landing field when the Winnie Mae took off.

WOMEN URGED BOLT DEMOCRATIC PARTY AGAINST ROOSEVELT

EDITORIAL IN "THE WOMAN VOTER" SAYS ROOSEVELT WETTER THAN SMITH

WASHINGTON, June 29.—(AP)—An editorial characterizing Governor Roosevelt of New York as wetter than Smith, and calling upon southern democratic women to bolt the party if he is nominated for president was published today by the National Women's Democratic Law Enforcement League.

The article was written by Mrs. Jesse Nicholson, president of the league, and appeared in its official organ, The Woman Voter.

Mrs. Nicholson also assailed Col. Edward M. House, confidential adviser to President Hoover, who recently conferred with Roosevelt in Massachusetts. Referring to a statement attributed to House that the New York governor would be acceptable to the drys, she said: "What dries does he mean? The very few southern politicians who supported Smith in 1928."

At a recent convention of the democratic women's league here there were frequent speeches urging an organized bolt from the democratic party in 1932 if the candidate was a wet. The entire group of delegates, many of whom voted for President Hoover in 1928, called at the White House to pay their respects.

In her editorial today, "Mrs. Nicholson advised Col. House to get the vote of the southern dry women if he would be saved from embarrassment later on."

Woman Dies From Stab Wounds Monday
HOUSTON, June 29.—(AP)—Mrs. J. L. Snyder, 43, of Stewart Heights, died today from stab wounds, near her husband was being treated for poisoning at a Houston hospital.

A. B. Morris, deputy constable of Goose Creek, said he would file murder charges against Snyder at Goose Creek.

Morris said Mrs. Snyder had been stabbed in the chest, under the arms and back.

MORE MINE DISORDERS
STEEBENVILLE, Ohio, June 29.—(AP)—One man was shot and wounded and another was clubbed with a gun butt in disturbances at Bradley Mine, No. 1, and Smithfield, near here today in connection with the Eastern Ohio coal mine strike.

HOOGING THE RIGHT-OF-WAY

YOUTH AND GIRL FOUND MURDERED ON LONELY HIGHWAY

(By The Associated Press.) Eighteen persons were victims of violent death in Texas during the week-end. One man was drowned near Denton, five were drowned in the Red River near De Kalb, two were shot to death near Dallas, two Dallas residents were fatally injured at Palmer, Ellis county, when a train struck their automobile, one man was shot to death at Kilgore, a former judge shot himself to death at Rule, lightning killed two persons near Spicewood, a San Antonio man was shot and killed, and a man ended his life at Kilgore. A woman and man met death as the result of auto accidents.

The dead were: BILL SHERLOCK, 21, Denton; JOE BAILEY ROMANS, 10, Clear Lake Ferry.

TOMMIE ROBERTS, 25, Clear Lake Ferry. HERBERT SIMONS, 30, Clear Lake Ferry.

MYRTLE PROCTOR, 20, Clear Lake Ferry. GLADYS ROBERTS, 21, Clear Lake Ferry.

CLAUDE SHAW, 35, Kilgore. ABE SCHREIBER, 20, Galveston. PAULINE CORMAN, 17, Dallas.

MRS. S. K. ROSS, 49, Dallas. SAM ROSS, 50, Dallas. J. W. KELLY, 66, Rule. HARVEY HARBISON, 22, Van. VELMA SHEPPARD, 17, Spicewood.

DAYTON MEREDITH, 18, Spicewood. CRIZ MORIN, 21, San Antonio. MRS. C. CALLAWAY, Waco. FRED CLINE, Waco.

Five persons were drowned in the Red River at Clear Lake Ferry, 14 miles north of De Kalb, Sunday, when they stepped into deep water Sunday, when the weather was calm.

Young Couple Murdered
The bodies of Abe Schreiber, 20, and Pauline Corman, his sweetheart, were found early Sunday

COOLING NAMES ON HOTEL REGISTER AS MERCURY CLIMBS

SOUTH BEND, Ind., June 29

(AP)—While the thermometer stood at 103, Mr. and Mrs. Palmer Ice of Fairmont, Ind., and Mrs. C. E. Winters of Buffalo, N. Y., registered at a local hotel yesterday.

FIRST BALE OF TEXAS COTTON IS SOLD FOR \$350

CORPUS CHRISTI, June 29.—(AP)—The first bale of 1931 cotton grown in the United States brought here last week by W. M. Thorne of LaSara, Willacy county, today was bought at auction by the Texas Cotton Cooperative association for \$350. The bale will be sent to the American Cotton Cooperative association at New Orleans.

News of the hoisting of the flag was reported in a wireless message published in the newspaper. Tidens Tegen indicated that the expedition had occupied on behalf of Norway about 300 miles of coastline from Carlsberg Fjord in the northern part of Jamesonland to Nessel Fjord south of Dove Bay.

Norway has never recognized Denmark's sovereignty over Eastern Greenland, the official Norwegian policy being that this area is no man's land.

Tidens Tegen said probably the question of sovereignty in Eastern Greenland must be settled through international arbitration.

The Norwegian premier stated that he had received no communication from the expedition relative to its action. The leader of the expedition had not asked for the government's authorization, he said, nor did the government have any knowledge of the steps taken.

Wait Statement
COPENHAGEN, June 29.—(AP)—Premier Stauning said today that the Danish government must await a statement from the Norwegian government concerning reports of Norwegian occupation of a part of Eastern Greenland.

TWO ARE INDICTED

DALLAS, June 29.—(AP)—Zlona Mary Chovin, 40, and Charles H. Chandler, 47, oil stock salesman, were indicted today by the grand jury for murder in connection with the alleged ambush slaying of the woman's husband, John C. Sperry, 40, last Friday at a picnic supper near gravel slough.

SEVENTH DAY OF HEAT WAVE FINDS TEMPERATURE HIGH

UPWARDS OF TWO HUNDRED HAVE DIED IN WEEK'S UNPRECEDENTED HEAT

(By The Associated Press.) Wind and rain brought temporary relief today to parts of a parched midwest. The death toll, however, still mounted as most of the nation sweltered under the onslaught of heat and sun.

Chicago was cooled by a Lake Michigan breeze that drove the temperature down ten degrees to 83 at 11 a. m. The respite was for a brief spell only, the weather man predicted. Tonight and tomorrow will be hotter.

The Windy City death list skyrocketed to 25 since last midnight. Elsewhere over Illinois, the mercury rose hourly.

(Continued on page 7.)

HOISTING OF NORWEGIAN FLAG ON GREENLAND COAST TO BE THOROUGHLY PROBED

KERENS FIRE CHIEF DROPPED DEAD AFTER FIRE EXTINGUISHED

KERENS, June 29.—(AP)—J. J. Walker, 60, chief of the Kerens fire department, dropped dead here about 3 a. m. Monday following the extinguishing of a fire which destroyed two filling stations and a garage. He was taken to the home of his son, R. P. Walker.

Mr. Walker has been a resident of Kerens all of his life and had served 20 years as city marshal and two years as mayor of the city.

Funeral services will be held Tuesday afternoon with interment in the Kerens cemetery. Rev. Joe N. Everheart will officiate.

Surviving are two sons, Roy Walker, Corsicana; R. P. Walker, Kerens, and two daughters, Mrs. M. Queen, Corpus Christi, and W. M. Towne, Corsicana.

The fire, which had just been extinguished when Chief Walker dropped dead, supposedly from a heart attack, consumed the garage and filling station of E. M. Howell and the filling station operated by L. C. Mabry. The origin of the fire is unknown. No insurance was carried by Howell or Mabry but the buildings, which were owned by Garfield Webster, were partially covered by insurance.

The loss was estimated at \$15,000.

ACQUITTAL VERDICT IN SLAYING MEXICAN STUDENTS SCORED

MEXICAN PRESS STRONGLY CRITICIZE VERDICT OF ARDMORE JURY

MEXICO CITY, June 29.—(AP)—The Mexican press devoted its lead editorials today to strong criticism of the acquittal at Ardmore, Okla., Saturday, of Deputy Sheriff W. E. Guess, charged with killing Emilio C. Cortes Rubio, nephew of President Ruiz Rubio, on June 8.

Under the title "The Shame of Ardmore," Excelsior termed the shooting an "infamous and cowardly act," and blamed the acquittal on a "partial or ignorant jury, perhaps influenced by racial prejudice."

"It would be unjust," Excelsior said, "to blame a whole people for the partiality of one of their courts, hence our comment is directed against the nameless justice (?) of Ardmore and against certain notorious vices of the lower class American police who in some states are guided by a 'save your skin to kill'."

Innumerable abuses have been committed in Mexico, the paper admitted, "but we cannot recall a case of Mexican police assassinating honorable youths of a foreign country here in the double character of distinguished guests and students of outstanding good conduct. Nor, which is still more scandalous, that the assassin was

OKLAHOMAN SLAIN BY THREE YOUNG HIGHWAY ROBBERS

CUSHING, Okla., June 29.—(AP)—George Masquar, 45, of Shawnee, Okla., was shot and killed near here last night by three youthful holdup men, who fled on foot after the shooting.

Masquar was visiting his mother here with his son. They said the three were driving and had parked about two miles east of here.

They noticed a truck pass and repress them several times before three boys, handkerchiefs over their faces, approached them. When Masquar rose to get out of the car, one of the boys fired a shotgun full into his face.

Payne county officers were notified and bloodhounds from the state prison at McAlester were expected to aid in the hunt today.

GOVERNOR CRACKS WHIP ON OX TEAM TEMPLE FESTIVAL

TEMPLE, June 29.—(AP)—Governor Ross Sterling cracked a whip over ox teams drawing a parade float at the head of the parade which opened Temple's celebration of its 50th anniversary today. Between 30,000 and 40,000 people were in Temple for the festivities, which were to end with a rodeo and street dance tonight.

Adjutant General William Shapling, who, with Ranger Captain Tom Hickman, is one of the rodeo judges, rode in the parade. A long line of picturesque floats, depicting the growth of Temple since founding of the town June 29, 1881, by the Santa Fe, set off the parade.

Governor Sterling and Congressman C. H. Ross were to speak during the day.

Defendant Appears Without Attorneys Or Any Witnesses

FORT WORTH, June 29.—(AP)—Without lawyers without witnesses but apparently with a good knowledge of law, Harold Lincoln Bomberger, 23, went to trial in criminal district court Monday in connection with the "bridge party holdup" at the home of S. D. Johnson the night of March 21. He appeared at the counsel table alone, carrying his hat and a sheaf of papers.

Bomberger faces nine indictments in connection with the holdup but the complaint on which he went to trial was one charging him with the robbery of Johnson of \$8.

YOUTH AND GIRL FOUND MURDERED ON LONELY HIGHWAY

DROWNINGS, AUTO ACCIDENTS, KILLINGS AND LIGHTNING STROKES

(By The Associated Press.) Eighteen persons were victims of violent death in Texas during the week-end. One man was drowned near Denton, five were drowned in the Red River near De Kalb, two were shot to death near Dallas, two Dallas residents were fatally injured at Palmer, Ellis county, when a train struck their automobile, one man was shot to death at Kilgore, a former judge shot himself to death at Rule, lightning killed two persons near Spicewood, a San Antonio man was shot and killed, and a man ended his life at Kilgore. A woman and man met death as the result of auto accidents.

The dead were: BILL SHERLOCK, 21, Denton; JOE BAILEY ROMANS, 10, Clear Lake Ferry.

TOMMIE ROBERTS, 25, Clear Lake Ferry. HERBERT SIMONS, 30, Clear Lake Ferry.

FINGER PRINTS ARE FOUND IN DALLAS MURDER CASE TODAY

DEATH CAR MAY DETERMINE MURDERERS BOY AND GIRL SATURDAY NIGHT

DALLAS, June 29.—(AP)—Finger prints smeared on a rented automobile were the principal clues by which police investigators hoped today to track down the slayer of a girl, 24, of Galveston, and her companion, Miss Pauline Corman, whose body was found early yesterday on an unfrequented road near Dallas.

Schreiber had come to Dallas to make final plans for their wedding and they were going riding, Schreiber's body was found hanging in a tree and a half from Schreiber's. Both had been shot. Police believed they were slain by robbers. A rent car in which Schreiber had taken the girl riding, later was found abandoned on a South Dallas street. Finger prints on the side of the car and on glass of the rear windows of the sedan were photographed and Bertillon experts were checking them today in an effort to classify them.

The road on which the shooting occurred has been the scene of many similar crimes in recent years.

A pistol, which officers believe was used in the double slaying, was found today close to the barbed wire fence over which Schreiber's body was draped. The gun was found to be compared with a bullet found the back of the death car.

Life Savings of Tyler Woman are Taken by Robber

TYLER, June 29.—(AP)—The life savings of Mrs. A. C. Faulkner, 73-year-old rooming house proprietor, were taken last night by a burglar who stole her money but contained \$3400. There were \$1900 in one dollar bills and \$1500 in ten dollar bills in the belt, Mrs. Faulkner said.

CIVIL DOCKET FOR DISTRICT COURT OF NAVARRO COUNTY

Civil docket for the district court of Navarro county, thirteenth judicial district of Texas, was completed Saturday and announced for the July term of the court beginning at 10 o'clock, Monday, July 6. The first week will be devoted to non-jury cases, the second and third weeks for criminal cases and the fourth and fifth week for civil cases, and the sixth week to jury cases.

Provision has been made for trial of divorce suits on each Saturday of the term. The criminal docket will be completed within a few days.

The civil docket follows:

FIRST WEEK

16,177—George Thomas vs. W. L. Clark, et al.

16,731—Mrs. Bertha Lee Knotts vs. Navarro county, et al.

16,732—Rice Lumber company, Inc. vs. Morrison and Coleman, et al.

16,810—Tonnine Borkchum vs. Zack Westbrook, et al.

16,833—Richard Mays vs. E. Trammell, et al.

16,849—Fowler Boiler Works vs. Midland Refining company, et al.

16,867—City of Corsicana vs. Mrs. Mary K. Sullivan, et al.

16,906—The City of Corsicana vs. Mrs. Eva McGee Salm, et al.

16,908—The City of Corsicana vs. W. H. Jack.

16,921—The City of Corsicana vs. W. H. Jack.

16,931—Malinda Granville vs. Rufus Pevhouse, et al.

Wednesday, July 9th, 1931

16,890—Mary West vs. J. O. Bumgarner.

16,928—National Casket company vs. Central Texas Undertaking Co.

17,003—C. A. Gordon vs. T. Harris, et al.

17,005—The State of Texas on the Relation of James Shaw, Banking commissioner, vs. First State Bank of Richland, Texas, et al.

17,006—John McNutt vs. Tom Bham.

17,011—Robert D. Hill vs. E. P. Mitcham.

17,023—J. E. McClelland vs. Trapshot Development company.

Friday, July 10th, 1931.

17,035—T. Hays et al vs. Navarro county, et al.

17,039—Guy Sifton vs. H. H. Hodde.

FOURTH WEEK

Monday, July 27th, 1931.

17,050—Mrs. Roxie Green, et al. vs. Willie D. White, et al.

17,066—Maryland Casualty company vs. Silvester Goforth, et al.

17,067—Maryland Casualty company vs. Dr. L. E. Don, et al.

17,073—Aubrey Harrell, by next friend of Bobby Joe Harrell, a minor vs. St. L. S. W. R. Co. of Texas.

Wednesday, July 29th, 1931.

17,075—Mrs. Orris E. Simmons vs. C. P. Ray, administrator, et al.

14,926—Panhandle Construction company vs. Mrs. Parrish Thompson.

14,930—Mrs. S. Holloman vs. Adam Cone, doing business under name of A. Cone Construction company.

16,081—R. H. Deerin, et al. vs. W. M. Wilson, et al.

16,506—Utilizing Milk company, a corporation vs. H. Travis Friday, July 31st, 1931.

16,554—Mrs. S. A. Newton, et al. vs. Rhondas Brothers.

16,727—Ned Watson vs. Navarro County Levee Improvement district No. 11.

16,728—Mrs. J. E. Simpkins vs. Navarro County Levee Improvement district No. 11.

16,730—Oscar Jackson vs. Navarro County Levee Improvement district No. 11.

16,732—Millie Jamison vs. Navarro County Levee Improvement district No. 11.

16,844—W. W. Mills vs. R. T. Pardee.

FIFTH WEEK

Monday, August 3, 1931

17,116—Houston and Texas Central R. Co., et al. vs. City of Corsicana.

17,117—Miss Frankie Freedman vs. City of Corsicana.

17,118—Mrs. Geo. Ricker vs. City of Corsicana.

17,119—Roy Zilliox vs. City of Corsicana.

17,120—Corsicana Compress company vs. City of Corsicana.

16,147—First National Bank of Corsicana vs. R. C. Jordan et al.

16,161—H. A. Carter vs. B. F. Irvine.

16,334—Mrs. M. M. Spain vs. T. C. Alexander.

16,336—R. H. Daniel vs. Isaac Kilgore, et al.

Wednesday, August 5th, 1931.

16,380—Mrs. Lizie Goldman et al. vs. Navarro County, et al.

16,756—Carlos E. Moore vs. A. M. Moore et al.

16,779—J. T. Posey vs. Syeve Palmeri.

16,812—H. L. Albright, et ux. vs. City of Corsicana, et al.

16,827—T. S. Daniel, Jr. vs. W. B. Tripp.

Friday, August 7th, 1931.

16,975—Marritt Hall Barnes by next friend, Mrs. Charles F. Barnes, vs. Sovereign Camp of Woodmen of the World.

17,000—R. I. Byers vs. J. A. Tarter, et al.

Bibles, Bibles, new shipment, prices lower.—City Book Store.

To Conduct Revival At Calvary Baptist

REV. ROGERS A. BUTLER

Rev. Rogers A. Butler comes from Baylor university, Waco, to begin a revival meeting at the Calvary Baptist church Wednesday night, July 1. It has been announced, by Rev. Thomas A. Bohannon, pastor. Services will be held at 8 o'clock. Rev. Bohannon will assist the visiting minister in the revival. Music will be directed by Mrs. Butler.

PICNIC GROUNDS AND PAVILION FREE AT MINERAL PLUNGE

E. D. McCarver, president of the corporation controlling the Mineral Plunge, Corsicana's modern bathing pool, extends an invitation to the people of Corsicana and Navarro county in particular to use the grounds and the two large pavilions at the Mineral Plunge on South Twelfth street for picnic occasions, especially on July Fourth, when picnics are the order of the day. No cost whatever is attached to the use of the picnic grounds or the pavilions, but if swimming is indulged a small fee is charged.

Special preparations have been made to accommodate the crowds expected at the pool on July 4th, with fresh water now being run in the pool and through it at all times, with the pump in full operation, and the pool and accessories freshly painted. As above stated, picnickers are cordially invited to bring their lunches and enjoy the cool, open pavilions, there being two of these conveniences on the grounds, and also the grass-covered campus near the pool entrance. No fee is charged for entering the grounds at any time.

With the giant toboggan, small chute for the small children and new water top for larger children and grownups in the pool and the pure mineral waters the pool is offering attractions these hot days and evenings that cannot be surpassed anywhere for bathing facilities and large crowds are in daily attendance at the plunge and enjoy the facilities offered there.

Stamps Quartet Be Heard Odd Fellows Home Friday Night

The Stamps quartet of Dallas, will be heard at the I. O. O. F. Home Friday night, June 10. It has been announced, Virginia O. Stamps, assisted by Martin, Doolley and Kirby will be presented in special numbers including sacred songs, popular songs and negro spirituals.

Freddie Martin, the 14-year-old music marvel, will also be heard.

Car Found Burned North of Corsicana

K. A. Blakeney, 205 North Nineteenth street, reported to the police department over the week end that he had found a sport model Ford coupe abandoned and burned on an old road through Chambers creek bottom. The car had not been stripped.

Police investigation showed the car had been registered for R. A. Johnson, Route 2, Wortham, Texas.

GREAT INCREASE IN PELLAGRA DRAWS HEALTH ATTENTION

The alarming increase in the number of cases of pellagra occurring in certain sections of the country, coupled with the fact that the disease is preventable, would seem to indicate that a more widespread knowledge of the prevention of pellagra would be highly desirable.

Through study of this condition by the U. S. Public Health Service and other investigating agencies it has been shown conclusively that pellagra is caused solely by lack of a well balanced diet. "Indeed, for the prevention and cure of pellagra the only medicine we have is food," says Dr. Joseph Goldberger of the U. S. Public Health Service.

A well balanced diet includes milk, lean meats, eggs, fish, vegetables either fresh or canned, and fruits all of which are rich in pellagra preventive properties. A diet of corn and molasses, which is the staple of the poor people of the South, is deficient in these elements. The Texas State Department of Health is greatly interested in the pellagra problem in Texas and has arranged for the free distribution of literature on the subject through the county health officer, Dr. D. E. Hamill. "Brewer's yeast has a beneficial effect in the treatment of pellagra, due to its high content of Vitamin "B" or the Pellagra Preventive Vitamin. Its use for this purpose is urged by the U. S. Public Health Service. This yeast will be furnished by the American Red Cross as long as the supply lasts and application should be made through the local Chapter. Ask your county health officer and central health committee for further information.

LOCAL OIL MEN SECURED GUSHER IN EAST TEXAS

S. V. Guerin and Frank King of Corsicana and D. W. George of Blooming Grove brought in an oil well in the East Texas field at London about 25 miles east of Tyler Saturday night. The well made 563 barrels the first hour which indicates a production of about 14,000 barrels daily. The well has been pinched in with a small choke awaiting pipe line connections. The swab was run only seven times before the oil spouted over the derrick. The bottom of the hole is 3772 and the well was completed in thirty days.

These men have twenty acres under lease and expect to start another well in a few days.

Berlin Socialists And Communists in Riot on Monday

BERLIN, June 29.—(AP)—Police were called in this noon to quell rioting by national socialists and communists on the University of Berlin campus.

They succeeded in separating the warring factions, but when the Nazis (national socialists) withdrew into an auditorium and began singing Hitler ballads the university authorities threw up their hands and closed the institution for the day.

SECRETARY STIMSON REPLIES TO FRENCH NOTE ON MORATORIUM

FRANCE IN "CORDIAL AC- CORD WITH HIGH SENTI- MENTS" HOOVER PLAN

PARIS, June 26.—(AP)—Negotiations seeking to harmonize the views of the United States and France on President Hoover's proposal for a war debts and reparations holiday will open tomorrow between Andrew W. Mellon, American secretary of the treasury, and French Premier Laval today said he would meet Mr. Mellon and Ambassador Edge at the ministry of the interior. The French finance minister, budget minister and Foreign Minister Briand will be present and technical discussions will take place.

The announcement came in the midst of presentation of the interchange of views thus far before the chamber of deputies.

WASHINGTON, June 26.—(AP)—The willingness of the United States to continue with France on a war debt and reparations moratorium plan was indicated today by Secretary Stimson in a formal statement.

The statement suggests in the French counter-proposal to President Hoover's one year's moratorium plan do not accomplish the full measure of relief contemplated by the president and must therefore be the subject of discussions to reconcile the two viewpoints.

Early conclusions in the discussions now being carried on in Paris by Ambassador Edge and Secretary Mellon with French officials were expected by the secretary in his statement.

"The French note shows a gratifying cordiality to the president's proposal," said the secretary's statement. It was issued by the state department simultaneously with the text of the French government's note replying to the president's moratorium plan.

The text of Secretary Stimson's statement follows: "The French note shows a gratifying cordiality to the president's proposal. As we understand it, the French government is mainly concerned that there should be no breach in the reciprocity of the Young plan agreement. France expresses a willingness to forego the retention of any German payments for a year.

"The president's plan does not propose a reconsideration or impairment of any international agreements, including our own debt agreements. His suggestion extended only to the year of the payment for one year of the payments under such agreements.

"The question of the method by which this postponement is to be accomplished and the ultimate payment of the postponed amounts matters requiring negotiation and settlement between different governments.

"There are suggestions in the French note which do not accomplish the full measure of relief to the debtor nations corresponding to the president's plan and must therefore be the subject of further discussion with view to a modification that will bring the full measure of accord which the fine evidence of co-operation in the French note gives every hope of success.

"In view of the action already taken by some governments in acceptance of the president's plan and the corresponding suspension of payments on inter-governmental debts due July 1, Ambassador Edge and Secretary Mellon are engaged in these discussions with the French government with view to early conclusions."

French Note on Moratorium. PARIS, June 26.—(AP)—The French note to President Hoover's proposal for a years' war debts and reparations payments suspension made public today states that the French government is in "cordial accord with the high sentiments" inspiring the president's proposal.

American Reply. PARIS, June 26.—(AP)—An American reply to the French memorandum responding to the Hoover war debts proposal was handed to Foreign Minister Briand of France at noon today.

The reply was as follows: "The American government ap-

INFORMATION FOR TOURISTS AND LOCAL TRAVELERS UPON CONDITION STATE DETOURS

AUSTIN, June 27.—(AP)—The following information relative to state highway detours was issued today by J. B. Early, chief maintenance engineer of the state highway department.

Highway 1, Hudepeth and Culbertson counties, 8.5 miles from two miles east of Allamore to Van Horn, good if wet or dry.

Highway 2, Tarrant county, 1.5 miles from Fort Worth south, good if wet or dry.

Highway 3-A, Guadalupe county, 15 miles from Seguin to San Marcos river bridge, fair if dry; difficult if wet.

Highway 4, Runtel county, 12 miles from Ballinger to Concho county line, good if wet or dry.

Highway 5, Childress county, one mile from Kirkland east, fair if dry; difficult if wet.

Highway 6, Grayson county, four miles from Red River to Denison, good if wet or dry.

Highway 7, Freestone county, 10 miles from Fairfield to Tangle, good if wet or dry.

Highway 8, Lubbock county, 13 miles from Lubbock south, good if wet or dry.

Highway 9, Brown county, 6 miles from Brownwood to Blanton, good if wet or dry.

Highway 10, Comanche county, 1.2 mile from Comanche river bridge, good if wet or dry.

Highway 12, Bee and San Patricio, 16 miles, Skidmore to Matthis, good if dry, very disagreeable if wet.

Highway 14, Ellis, 7.5 miles, Ennis to Navarro county line, good if dry or wet.

Highway 16, Wilson, 12 miles, Floresville to near Karnes county line, good if dry, disagreeable if wet.

Highway 18, Hall and Motley, 21 miles, 7.5 miles north of Matador north, good if dry, disagreeable if wet.

Highway 19, Hall, 13 miles, 12 miles west of Estelline west, good if dry, disagreeable if wet.

Highway 20, Motley, 11.6 miles, Matador south, good if dry, disagreeable if wet.

Highway 21, Jones, 1 mile, Stamford northwest, good if dry, disagreeable if wet.

Highway 22, Madison, 16 miles, Madisonville to North Zulch, fair if dry, impassable in prolonged wet weather.

Highway 24, Baylor, 12 miles, 2 miles east of Seymour east, fair if dry, disagreeable if wet.

Highway 25, Hale, 26 miles, Plainview to Lamb county line, good if dry, very disagreeable if wet.

Highway 26, Cottle, 13 miles, 4 miles east of Paducah east, fair if dry, disagreeable if wet.

Highway 27, Foard, 12 miles, Crowell west, fair if dry, disagreeable if wet.

Highway 28, Caldwell, 1.5 miles, Gonzales county line to Highway 3-A, fair if dry, disagreeable if wet.

Highway 29, Victoria, 22 miles, Victoria to Placedo Junction, fair if dry, disagreeable if wet.

Highway 30, Haskell, 16 miles, Haskell north, good if dry, disagreeable if wet.

Highway 30, Haskell, 8.75 miles, 1.5 miles north of Weir north, good if dry, disagreeable if wet.

Highway 30, Haskell and Jones, 1 mile, Stamford north, good if dry, disagreeable if wet.

Highway 32, Freestone, 24 miles, Leon county line to Highway 7 at Teague, fair if dry, disagreeable if wet.

Highway 32, Leon, 44 miles, Buffalo to Cross Roads, fair if dry, impassable in prolonged wet weather.

Highway 33, Gray, 8 miles, Kings Mill to Pampa, good if dry, disagreeable if wet.

Highway 35, Harris, 24 miles, Humble to Houston, good if dry or wet.

Highway 35, Liberty, 10 miles, Montgomery county line to Cleveland, good if dry, very disagreeable if wet.

Highway 37, Wood, 12 miles, Highway 38, Galveston, 6 miles, Hitchcock to intersection with Highway 36, good if dry or wet.

Highway 38, Galveston, 6 miles, Hitchcock to intersection with Highway 36, good if dry or wet.

Highway 39, Lamar, 3 miles, 1 mile east of Throckmorton east, good if dry, disagreeable if wet.

Highway 40, Denton, 12 miles, Dallas county line north, fair if dry, very disagreeable if wet.

Highway 41, Hardeman, 10 miles, Quanah north, fair if dry, disagreeable if wet.

Highway 42, Aransas, 9 miles, Rockport to Live Oak Point, good if dry or wet.

Highway 43, Brazoria, 8 miles, Bernard River to Matagorda county line, slow if dry, very disagreeable if wet.

Highway 44, Wharton, 15 miles, 4 miles south of El Campo south, fair if dry, very disagreeable if wet.

Highway 45, Wheeler, 16 miles, Shamrock to Oklahoma line, fair if dry, disagreeable if wet.

Highway 46, Throckmorton, 11 miles, 1 mile east of Throckmorton east, good if dry, disagreeable if wet.

Highway 47, Caldwell, 10 miles, Hays county line south, good if dry or wet.

Highway 48, Lavaca, 6 miles, Shiner to Highway 72, good if dry, disagreeable if wet.

Highway 49, Grayson, 6.5 miles, Whitewright to Collin county line, fair if dry, very disagreeable if wet.

Highway 50, Wheeler, 16 miles, Shamrock to Oklahoma line, fair if dry, disagreeable if wet.

Highway 51, Throckmorton, 11 miles, 1 mile east of Throckmorton east, good if dry, disagreeable if wet.

Highway 52, Caldwell, 10 miles, Hays county line south, good if dry or wet.

Highway 53, Lavaca, 6 miles, Shiner to Highway 72, good if dry, disagreeable if wet.

Highway 54, Grayson, 6.5 miles, Whitewright to Collin county line, fair if dry, very disagreeable if wet.

Highway 55, Wheeler, 16 miles, Shamrock to Oklahoma line, fair if dry, disagreeable if wet.

Highway 56, Throckmorton, 11 miles, 1 mile east of Throckmorton east, good if dry, disagreeable if wet.

Highway 57, Caldwell, 10 miles, Hays county line south, good if dry or wet.

Highway 58, Lavaca, 6 miles, Shiner to Highway 72, good if dry, disagreeable if wet.

Highway 59, Grayson, 6.5 miles, Whitewright to Collin county line, fair if dry, very disagreeable if wet.

Highway 60, Wheeler, 16 miles, Shamrock to Oklahoma line, fair if dry, disagreeable if wet.

Highway 61, Throckmorton, 11 miles, 1 mile east of Throckmorton east, good if dry, disagreeable if wet.

Highway 62, Caldwell, 10 miles, Hays county line south, good if dry or wet.

Highway 63, Lavaca, 6 miles, Shiner to Highway 72, good if dry, disagreeable if wet.

Highway 64, Grayson, 6.5 miles, Whitewright to Collin county line, fair if dry, very disagreeable if wet.

Highway 65, Wheeler, 16 miles, Shamrock to Oklahoma line, fair if dry, disagreeable if wet.

Highway 66, Throckmorton, 11 miles, 1 mile east of Throckmorton east, good if dry, disagreeable if wet.

Highway 67, Caldwell, 10 miles, Hays county line south, good if dry or wet.

Highway 68, Lavaca, 6 miles, Shiner to Highway 72, good if dry, disagreeable if wet.

Highway 69, Grayson, 6.5 miles, Whitewright to Collin county line, fair if dry, very disagreeable if wet.

GRADE CROSSING ACCIDENT FATAL TO FORMER CORSICANAN

SAM ROSS IN SERIOUS CON- DITION IN ENNIS HOS- PITAL AFTER CRASH

Mrs. Sam Ross, aged 49, was fatally injured and her husband Sam Ross, aged about fifty, was critically injured about 6 o'clock Saturday morning when the automobile in which they were en route from Dallas to Corsicana was struck by a north-bound passenger train on the Southern Pacific lines at a grade crossing just north of Palmer.

Mr. and Mrs. Ross were rushed to the Ennis hospital and the Keever ambulance where Mrs. Ross died of internal injuries about seven o'clock. Mr. Ross was reported in a very critical condition at noon Saturday, but attending physicians entertained a slight possibility of recovery.

Mr. Ross is suffering from a severe concussion of the brain, fracture of the right arm and internal injuries, the exact extent of which were not determined.

The couple were en route from their home in Dallas to Corsicana, when the accident occurred near the north end of the pavement north of Palmer, near the brick mill. Their automobile was demolished.

Mr. Ross is a salesman for the St. Louis-Doekum Wholesale Grocery company, and is well known in the Dallas area. He has been in Dallas for many years. Recently he had made his home in Dallas, living at 3129 University boulevard.

No funeral arrangements have been made for Mrs. Ross at noon Saturday, and the body was in the Keever Funeral Parlor at Ennis pending their completion.

Mrs. Ross was formerly a resident of Corsicana.

C. S. Stroud of Corsicana, Ross' employer, left for Ennis as soon as word was received of the accident and did not return to his office at noon.

The following account of the passing of Mr. W. M. Miller, prominent pioneer resident of Greenville, was taken from the Greenville Evening Banner:

Wesley M. Miller, 63, pioneer Hunt county resident and well known throughout this section of the state, died at 2:50 o'clock this morning at his home, 4024 Wesley street. Death followed a period of ill health of twelve months duration, however, it came as a shock to the members of the family and friends.

Last rites will be observed at 10 o'clock Thursday morning. Services will be held at the First Baptist church, conducted by the Rev. A. W. Reeves, pastor, assisted by the Rev. Paul Martin, pastor of Kavanaugh Methodist church. Burial will follow in Forest Park cemetery.

Active pall bearers will be Dr. Henry Falter, E. D. Barlow, J. E. Livingston Morris, J. F. Daniel, Henry Pharr, J. A. Cagle, Louis Andrews and C. H. Andrews. Honorary pallbearers will be all friends.

Wesley Moore Miller was born January 1, 1868 in Delta county, the son of the late W. L. Miller. His grandfather came to Texas in 1844 while this state was still a republic and settled near Klondike in Delta county. Mr. Miller spent his early childhood in Delta county but later moved to Yowell where he married Fanny Logsdon December 16, 1890.

In early manhood, Mr. Miller professed faith in the Master and united with the Baptist church. At the time of his death he was a faithful member of the First Baptist church of this city. He was deeply religious and was at all times ready and willing to perform some service in behalf of Christianity, was anxious to bear aloft the flag of Christianity and until ill health prevented, he was active in various departments of church work.

Nothing gave Mr. Miller more pleasure than his church work and he was happy when accomplishing something for his church and Sunday school. He was a member of the Men's Bible Class of the First Baptist church and a leader in this organization. Mr. Miller was a member of the Masonic Lodge and took great pride in his lodge work and thoroughly enjoyed his association with lodge brothers.

Mr. Miller was well known throughout this section of the state and admired for his many sterling traits. He was honest and square in his dealings with his fellow men, was friendly and courteous, was a kind and loving husband and father and a splendid neighbor. Many friends will join the bereaved family in mourning his death.

Surviving are four daughters, Mrs. S. D. Whitten, Greenville; Mrs. W. W. Harris, Corsicana; Mrs. E. C. Brice, Mt. Pleasant and Mrs. J. E. Chapman of Dallas. Two brothers, R. M. Miller of Commerce, J. F. Miller of Drumright, Ok., and a half brother, J. M. Robertson of Klondike and sister, Mrs. C. Patrick of Commerce also survive as do six grandchildren and numerous other relatives.

Outlook Cotton Mill Operators Brightened Says M. E. Woodrow

With the general improvement during the past ten days of conditions in the cotton market, the outlook for cotton mill operators has brightened appreciably, according to M. E. Woodrow, vice-president and general manager of the Corsicana cotton mills.

Mr. Woodrow has recently returned from a two-months' stay in New York City in connection with the business of the mill. Although merchandise prices are still far out of line with the price of cotton, Mr. Woodrow said that if it were possible to secure cotton for his mill, he would resume full time operation of the Corsicana mill at once and at least give it a trial.

Place Large Orders. Recent advances in the price of cotton have caused buyers generally to begin to place large orders for cotton goods of all kinds; the textile and automobile industries are reviving their activities and adding greatly to the demand volume for products of the various mills.

The general manager of the Corsicana mill said that his plan was turning down business at present, rather than manufacture products with the necessity of having to sell them at a loss.

Because the bulk of cotton suitable for mill use is now stored at various shipping ports, it is difficult to secure sufficient raw materials he said.

While the size and condition of the cotton crop is the intense variable factor in the market and mill outlook at the present, Mr. Woodrow stated that developments during the past ten days have given rise to an optimistic feeling. While the industry as a whole does not believe that it is out of "the woods they feel that they have found the path."

Attitude Brighter. Thirty days ago while in New York, Mr. Woodrow said that the outlook was darkly pessimistic but that within the past ten days conditions have changed considerably, and the general attitude is much brighter. He repeated his statement that he would re-open his mill on full time basis, and take the risk of disposing of his products at a fair margin.

Use-more-cotton movements sponsored by the local cotton growers and merchants of the nation have succeeded in securing the

use of more cotton, and New York's leading merchants are presenting marvelous displays of cotton dresses and other wearing apparel. Other industries are also using all possible ingenuity in discovering new ways to use cotton.

Quite recently Mr. Woodrow has received a communication from a leading starch manufacturer stating that in the future starch would be packed entirely in cotton bags.

Mr. Woodrow is looking forward with considerable interest to the developments of the next several days, and particularly the inaugural acreage report of the department of agriculture on July 8, which will enable the manufacturers to secure a preliminary idea of the size of the 1931 crop.

J. W. BRADLEY WAS BURIED IN OAKWOOD THIS AFTERNOON

Funeral services for J. W. Bradley, of Fort Worth, formerly a resident of Corsicana, were held at Oakwood cemetery Saturday afternoon at 3, where interment was made. Mr. Bradley died in the Baptist hospital at Fort Worth Friday morning, after fatal injuries were received in an automobile accident on Wednesday.

The deceased is survived by a wife, one son, three daughters, four sisters, Mrs. D. D. Dubose, Corsicana; Miss Isabel Bradley, Dallas; Mrs. J. F. Wallace and Miss Corrie Bradley of Wortham, and a cousin, Mrs. Carter Kivren, Sr., of Corsicana.

Sutherland Funeral Home had charge of the services here.

Crops in Malakoff Area Doing Well

MALAKOFF, June 26.—(AP)—Crops are doing fine here. This hot weather, though it's too hot to work at times. About all of the late cotton is now chopped and is looking good and growing. Some of the early corn will soon be in roasting ear. Early peaches are now ripening.

MISS ERSKINE TO BE HEALTH NURSE FOR TWO COUNTIES

Announcement was made at the meeting of the central committee directing the joint campaign of the state health department and the United States public health service program in Navarro county, Friday night, that Miss Margaret Erskine, former city public health nurse and later superintendent of the Navarro Clinic, would be the public health nurse for Navarro and Ellis counties. She will assume her new duties on July 1.

Preliminary plans were made at the meeting for the launching of campaigns in and near Corsicana, Zion's Rest, and Enhouse which will include sanitary toilets, mosquito control, and immunization work, particularly among the school children.

An effort will be made Monday night to secure the cooperation of the Navarro County Medical Society in administering the various types of vaccines and serums supplied by the federal government under the new program.

Further meetings will be held soon to make additions to the program.

Among those attending Friday night's meeting were P. F. Erskine, thold, sanitarian; Festus Pierce, committee chairman; D. J. Wilson, Dr. W. T. Shell, Jr., Dr. W. R. Seely, County Judge H. C. Nash, County Agent Calvin Pigg, Mrs. E. Y. Cunningham and others.

CARD OF THANKS. We wish to thank of many friends, neighbors and relatives for the kindness and sympathy shown us during the illness and death of our husband and father. We especially want to thank the American Legion and the Corley McMahon Funeral Home.

We are also thankful for the beautiful floral offerings. May God blessings rest on each and every one of you in the hour of sorrow.

MRS. AZARIAH F. JONES and children and other relatives.

ELECTRA HOME BURNS.

ELECTRA, June 27.—(AP)—C. R. Myrick and his family drove into the back yard at their home last night and went to bed on cots because of the oppressive heat. Early today they awoke when they felt themselves being showered with blazing cinders. Their house was afire and they escaped only with their night clothing. The home was completely consumed.

Bullet Riddled Body of Youth Found Friday

FORT WORTH, June 26.—(AP)—The bullet-riddled body of Claude Prater, 16, was found this morning on the Winfield Scott ranch, 20 miles southwest of Fort Worth, by two deputy sheriffs. It was under a clump of bushes, apparently where it had stopped rolling after being tossed over a sloping bluff. The location was several miles from the scene of a gun battle Wednesday night between four youths and men who evidently were defenders of a still on Mary's creek.

Tracks made by the automobile bearing the body to its resting place led officers to the spot. They have been informed by "grapevine telegraph" of the approximate location. The searchers worked until last night to find the area in the rough, wooded country.

HEAVY RAIN FELL HERE LATE FRIDAY; WAS NOT GENERAL

A heavy rain fell in Corsicana and a small surrounding territory late Friday afternoon. The rain here was 31 of an inch but numerous places over the county reported very little or no rain at all.

A typical local shower cloud formed a few miles south of here and passed over the city, the rain playing out near the Country club. Enhouse, Roane, Eureka and other sections reported no rain at all, while Frost, Blooming Grove, Purdon, Richland, Powell, Kerens, Rice, Dawson and Barry reported only a light shower.

TAX COLLECTORS ADJOURN. AMARILLO, June 27.—(AP)—R. D. Richey of El Paso was the president of the Tax Collectors' association of Texas today. Texas tax collectors yesterday, after electing Richey to head the organization, adjourned at the 1932 convention city, closed their 27th annual convention.

DALLAS MAN SLAIN AT PICNIC GROUNDS AND WIFE CHARGED

DALLAS, June 27.—(AP)—John G. Sperro, 40, parking station employe, was stabbed and shot to death last night at a picnic grounds near Dallas. Formal complaints charging murder were filed this morning against the slain man's wife, known as Mrs. Zona Scholvin, and C. H. Chandler, reported to be an Oklahoma oil man.

Investigators learned that Sperro and his wife had been living apart for some time.

According to statements obtained by Sheriff Hal Hood, Sperro was shot from ambush as he sat on the ground beside the supper which had been spread at the picnic grounds.

Large Barn Burns Thursday Night in Wortham Suburbs

WORTHAM, June 27.—(AP)—The large barn of E. G. Purdy, located in east part of Wortham, just out of the city limits was destroyed Thursday night by fire. Many thought the eastern section of the residence part of Wortham was on fire when the fire alarm was turned in and almost caused a "city panic." So many driving in cars made traffic dangerous for some time. The loss is not known, but some insurance was carried. No livestock was burned.

While it was impossible for the fire company to reach water connections, yet good work was done preventing spreading of the fire which was really dangerous due to the exceedingly dry weather.

GASSER STILL RUNS WILD. CENTER, June 27.—(AP)—The Pickering No. 1 Well, a mile east of Joquim, today is still running out of control, after blowing in at noon Thursday as a dry gasser. Workmen were setting up boilers a hundred yards from the well and expected to attempt late today to curb the flow of gas estimated at 25,000,000 cubic feet daily.

precitates the cordiality of the French governments' response to the president's proposal. It hopes the French government will take advantage of the presence of the secretary of the treasury in Paris and discuss with the ambassador and with him the various problems arising from the original proposal of the president and the French answer. The ambassador and Mr. Mellon are fully advised as to the views of my government. (Signed) "STIMSON"

India In Accord. SIMLA, India, June 26.—(AP)—India's agreement to the British proposal to suspend war debt payments to the United Kingdom as from July under the Hoover debt holiday plan was announced in an official communique from the Indian government today.

Wortham Vacation Bible School Was Closed On Friday

WORTHAM, June 27.—(AP)—The Daily Vacation Bible school that has been held at the Methodist Protestant church closed Friday night. At conclusion of the exercises the pastor, Rev. Wade, presented certificates to the following pupils:

Margaret Red, Mizel Cole, Ruby Keeling, Margaret Means, Emma Smith, Ioma Smith, Zanelle Posey, Edwin Wade, Willie Hayden Weaver, Mildred Boulware, Frances Bounds, G. Anita Posey, Nellie Bourne, Penn Bounds, Hemmett, Colbert Puerfiro, Willie Dale Magness, Franklin Red, Junette Wade, J. T. Puerfiro, Billie Means, James McKinney, Ray Hammett, Eli Garrett, Jr., Grace McKinney, Mary Bounds, LeRoy Garrett, Donnie McKay, Geneva Morrow, Bonnie Bess Stubbs, Donaller Bell, Mamie Louise Bates, Mollie Lou Mitchell, Mary Virginia Bowles, Hill Howard, Jr., Lemoyne Bounds, Aurelia Jane Morrow, Christine Bounds, Grace May Weaver.

Mrs. Ernest Strange and Miss Audrey Posey who had charge of the registry report an enrollment of fifty-six pupils. Mrs. Bob Williford was director of the school, assisted by Mrs. E. R. Corn.

Summer Health Roundup at Teague Held This Week

TEAGUE, June 27.—(AP)—The summer health roundup for the children who will enter school in September was conducted at the city hall with Miss Beatrice Lott, county health nurse, assisted by Mrs. Stevens, county nurse of Anderson county, of Palestine, and the local physicians, conducted the examinations.

There were 38 examined out of a possible 80, which is a much better per cent than is recorded for last year.

Woman Flyer Here In Connection With Furniture Sale

Mrs. Charles Kulp of Tyler, piloting a Spartan two-place open biplane today in a Wright J-6 motor, was in Corsicana Saturday, and flew over the city dropping small parachutes, in connection with the Miles Furniture company's sale.

Mrs. Kulp is a niece of Mr. and Mrs. S. J. Miles and has been

CORSICANA, TEX., JUNE 30, 1931

ERADICATION OF MOSQUITOES.

The mosquito season is here again, and in some communities the public may desire to have freedom from this pest. In considering the problem of eradication and control of mosquitoes, we must fully realize that we may have several kinds of mosquitoes in one locality, and that these different varieties may differ decidedly in customs of life and travel habits.

Along the seacoast, from Maine to Texas, we have a mosquito called "Aedes sollicitans" that breeds in brackish water, and which travels long distances voluntarily with light breezes. This species emerges in large numbers from time to time and becomes very annoying. Also, in recent years, with the development of oil fields and gas wells, inland sources of salt water under pressure have been released and the water has been brought to the surface, and this former coastal mosquito has established itself in several inland localities where it formerly did not exist.

There are other species of Aedes that travel for considerable distances, which originate in temporary sheets of water and in pools in wooded areas, and may become nuisances of intermittent nature according to prevalence of rainfall periods. The control of these species is of importance to many communities, as their presence affects property values. The mosquito control work should be undertaken by the community, county, or group of counties affected, as is now being done in New Jersey, Massachusetts, and some other States.

In villages, towns, and cities we have local mosquito to nuisance problems for which we ourselves are largely responsible. These local nuisances are caused by a mosquito known as the "Culex," and in the Southern States, also by another known as the "Stegomyia," which is closely associated with man but reproduces only in fairly clean water. Both of these mosquitoes reproduce in water containers which we allow to be so placed as to catch and hold rain water. The "Culex" also propagates in enormous quantities in dirty water and in collections of water heavily charged with house waste or sewage. Slowly moving or stagnant water into which house sewers discharge produce many more "Culex" per unit of water surface area than clean water. Also, when extensive "Culex" breeding areas of this nature are produced by man, we find the "Culex" range sometimes as far as two miles from such a prolific source and follow us into our homes. Especially is this true where the effluent of a town septic-tank empties into a small stream near the edge of the town. Under this condition sometimes the water is black with mosquito larvae for a distance of two or three miles. It is well for us to keep in mind the fact that we are very frequently responsible for the prevalence of this kind of mosquito, because we allow water containers to be exposed to the rains, and allow polluted water to exist in and near our homes and communities, which condition favors a rapid production of this pestiferous insect.

In large numbers of communities these conditions favorable to mosquito production make it greatly in excess of the cost of removal or control of the breed-

JUST FOLKS

IRIS
 Iris, would that you could grow
 Just a little stronger,
 And could brave the winds that
 blow
 Just a little longer.
 Lovely are the blooms you bear,
 Delicately tinted,
 Like a bit of goddess
 For a fairy printed.
 But for just a week in spring,
 Were your charms intended,
 Then your radiant blossoming
 Cruelly is ended.

Thus it is that mortals weep,
 Joys they've learned to cherish
 And the charms they long to keep
 Soonest seem to perish.
 Copyright, 1931, Edgar A. Guest.

LEADERSHIP.

President Hoover proposes to the allied governments that there shall be a year's moratorium on intergovernmental war debts, principal and interest, on payments by the allied governments to the United States, on payments by Germany to the allied governments and the United States.

Summarized, the United States will relieve the allied governments of paying \$246,566,806.44—\$62,344,618.07 of which is on principal—during the fiscal year beginning July 1st, and the allied governments are asked to relieve Germany of paying to them during that time, \$385,574,430, due them on reparations and kindred account. And in addition to that the United States will forego payment from Germany during that time of \$15,475,020, on account of the cost of the army of occupation.

Suspension of intergovernmental payments for a year will ease the critical situation in Germany and will ease a situation in the capitals of Europe that is seriously threatened by the near collapse of the Young Plan.

It is a statesman like move, calculated to be approved by other governments—it is not unlikely that they have been informally sounded prior to the announcement—and giving the government of Germany an immediate relief, of which it was in critical need, as well as a buttress in the spirit of assurance, which will be hardly less consequential.

Congressional action will be necessary, but there will be plenty of time for that before any payments to the United States, subsequent to the opening of the fiscal year will be due, and the president has called into conference representatives of the Democratic party, as well as the Republicans, in both senate and house, and has received assurances of support which substantially insure favorable action without party division.

Of the 21 senators quoted by the president in his announcement as assuring him support, 12 were Democrats, including such leaders of the party as Senators King, Glass, Cordell, Hull, Swanson, Pat Harrison, Wash of Massachusetts and Wagner of New York. There were fewer democrats among the house group. But there is every reason to believe that there will be no party division on this project. And there can be no doubt that popular opinion throughout the country will enthusiastically sustain the president's proposal.

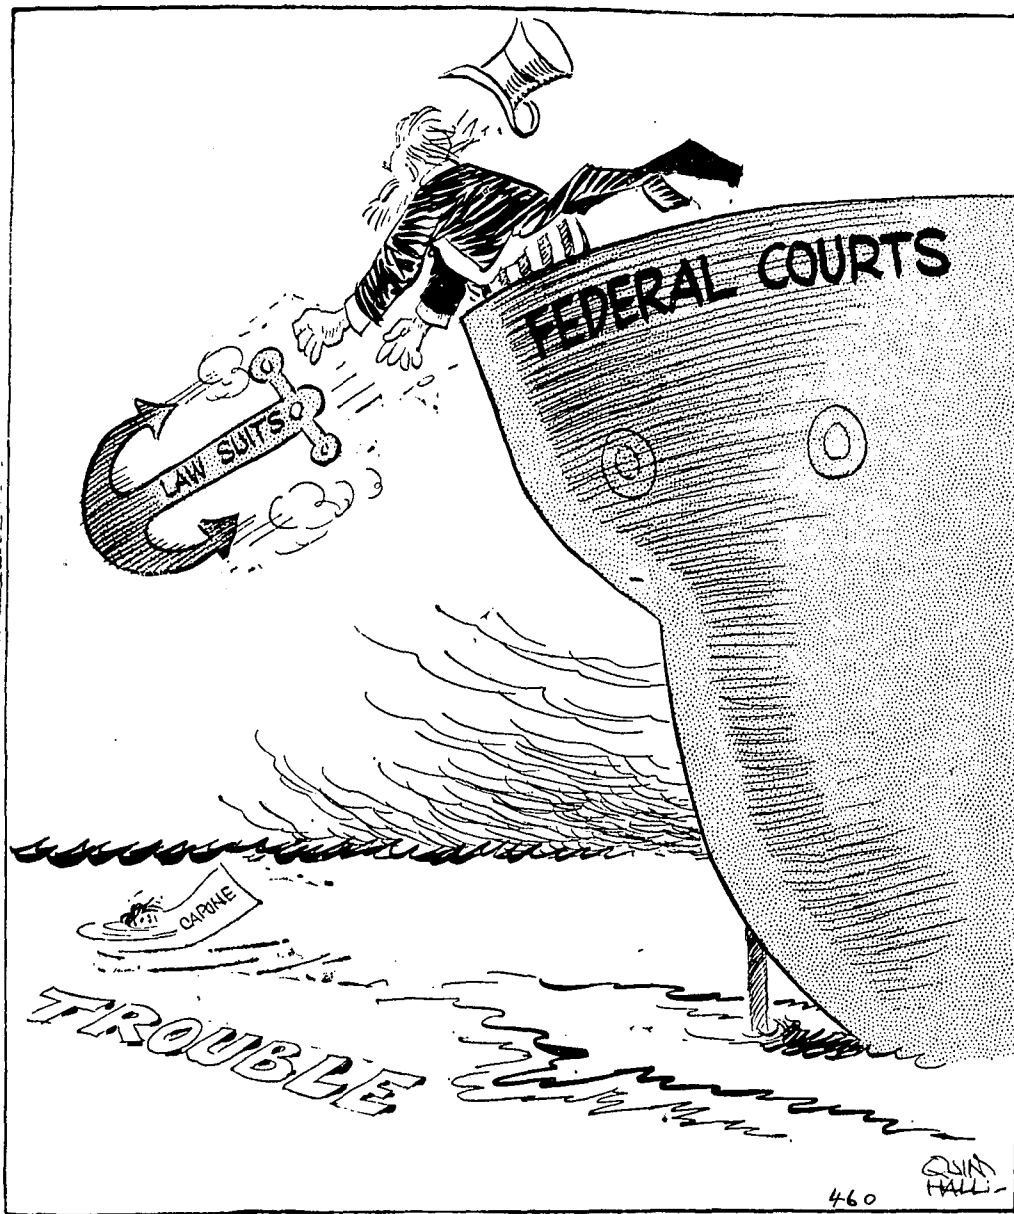

President Hoover makes clear, beyond mistake, that there is no step toward debt cancellation in this, nor any recession from the position the United States has taken in the separation of the matter of its war debts from the reparations questions.

This is the voluntary act of the United States, taken at a time when its own Treasury is closing a fiscal year with an extraordinary deficit, ignoring its own need for receipts in its concern for greater stability and security in world finance. It is a proposal of the United States to do its part, upon its own initiative, and by its contribution to make it possible for the allied governments to do their

ing places of the "Culex" mosquito.

In order to bring about the reduction of the mosquito nuisance, many towns have adopted the standard mosquito ordinance, which makes it a misdemeanor for any property owner or tenant to allow mosquitoes to breed on his premises.

"Help Yourself"

THE BROAD VIEWPOINT

There is an old maxim: "Put yourself in his place!" Charles Reade made it the title of one of the great moralizing novels. This maxim is as applicable today as at any other time in the world's history, and in estimating the words and actions of relatives, friends and acquaintances, as well as of public men, the maxim always should be remembered.

One reason why it is easy to be more tolerant of the words and deeds of relatives and close friends is that we know them well, and therefore are able to put ourselves in their places more readily than we can put ourselves in the place of a public man whose motives and reason we can often only guess at.

As a matter of fact, the maxim states an impossibility. One cannot put himself in the place of another. Of course, the more nearly our experiences coincide with those of others the better we can sympathize with them and understand their reactions. But even when the experiences of two men seem to have been identical, the circumstance that two men's natures, dispositions, temperaments, ages, education, training and environment are different will prevent them from looking at the thing in the same light, from feeling about it in just the same way and from coming into perfect accord concerning it.

Judging one's fellow men is decidedly unfair. A recent comment gave this parallel to the administration's difficulties in the matter of government income and outgo:

"My wife keeps me up so late at night entertaining friends, that I cannot get up early enough in the morning to earn enough money to enable her to entertain enough friends to keep me up so late that I cannot get up early enough, etc."

Uncle Sam will demilitarize the Island of Guam and possibly make it a public park. There is, however, a strong sentiment for leaving one or two cannons, for use of picknickers who scatter Crackerjack boxes and olive bottles.

part toward the accomplishment of a recovery that is of common interest to all governments concerned.

The proposal is, in the president's words, "wise and timely action that should contribute to relieve the pressure of adverse forces in foreign countries and should assist in the re-establishment of confidence, thus forwarding political peace and economic stability in the world."

DIFFUSION OF RAIL DEPENDENCE.

Direct interests affected by the application for a freight rate increase by the railroads are those of over a million and a half of employees, 800,000 stockholders and the owners of eleven and a half billion dollars' worth of bonds. The indirect interests bring the total number of persons concerned in adequate rail earnings up to twelve millions, according to the calculations of an executive of the American Railway Association.

The roads average under normal conditions about a billion and a third of expenditure for materials and supplies. Over a seven-year period following 1923 they spent daily a million and a quarter for fuel, half a million for forest products, over a million for iron and steel and nearly a million for miscellaneous products. Equipment, extensions and betterments cost them \$800,000,000 a year.

The stake of the rails in getting more revenue is likewise the stake of the capital and labor engaged in producing what the rails buy to keep themselves going, as well as of the capitalists who raise the necessary funds and the little and big investors to whom the bonds and stocks are distributed. The rail interest likewise reaches out to include insurance policy holders and bank depositors whose companies are investors in transportation.

Probably 12 millions is a fair estimate of the forces that would be considerably benefited by a rate increase. That increase would, of course, come out of the pockets of the ultimate consumer. If numbers alone counted, consumer interests would be overwhelmingly decisive. The question at issue is whether consumer interest lies in saving the pennies safeguarded by holding rates at an unprofitable level or in making the dollars that might reasonably be expected to flow from railroad prosperity.

STEPS ONWARD.

Easy travel, easy communication and easy change are the first fruits of civilization.

Prehistoric man was wilder than modern man and had no family cares or home or business to attach him to one locality, yet he was less free to travel than modern man. Airplanes, railroads, automobiles and steamships give to everyone the freedom of the world.

Before science gave to man the telephone, telegraph, wireless and radio and swift means of transportation those who traveled afar had little hope of

PLANES OVER CROWDS.

Airplanes annoying President Hoover and former President Coolidge during the dedication services at the Harding Memorial moved the former to act at once to end a questionable aviation practice.

The Air Commerce act of 1926 prohibits aviators to fly over an open-air assembly at an altitude of less than 1,000 feet, except with the consent of the secretary of commerce—granted only for limited operations. The altitude regulation is the same in the case of congested sections of towns and cities, except that in some cases, according to the principles of safe flying, a greater altitude must be maintained over very large inhabited areas.

The air traffic rules governing flying over cities and crowds of persons were made to guard citizens against the airplane itself and did not consider the element of annoyance in roaring propellers and motors nor danger from objects that might be dropped. A wrench falling 2,000 feet would do more damage than one falling from just above the required height.

Planes overhead have added much to the pageantry of outdoor ceremonies and celebrations, but they are no longer a novelty and fliers will readily agree to rules that will better protect assemblies and prevent annoyances at outdoor ceremonies.

again seeing or being seen by those left behind. Today one can talk around the world and circumnavigate the globe in a few days by air and in a few weeks by land and sea. Once man was provincial perforce, now by choice.

The arts of printing and reading widen still further the horizon of man's acquaintance. Books and periodicals mirror for him the most distant lands and the dim past. They concentrate in one's own library the accumulated knowledge and experience of mankind. Thus there is possible a fellowship unhindered by time and space and a communion of kindred spirits in a language that is universal.

Than these, nature has bestowed no greater gifts upon humanity. Without them man could not have climbed to his present state of civilization, and deprived of them he would revert to a lower state. They are his indispensable aides in his wars against famine, pestilence, ignorance, intolerance and war.

The rich man has a barometer to foretell the weather, but even the poorest can try to shake salt out of a shaker.

MEXIA CHAMBER SEEKS VOCATIONAL AGRICULTURE WORK

MEXIA, June 26.—(Sp.)—By unanimous vote the Mexia Chamber of Commerce directors have petitioned the Mexia school board to add vocational agriculture to the curriculum of the Mexia high school. The board had previously declined to add the subject for this term, but it is believed that action of the chamber in bringing the matter up again will mean reversal of their former action.

TEAGUE TO GET WATER FROM RAIL LINE RESERVOIR

TEAGUE, June 26.—(Sp.)—In order to remedy the grave water shortage which is facing Teague citizens, the city authorities have effected an arrangement with the officials of the Burlington-Rock Island railroad company's system for temporary use, which means probably the entire summer season. A crew of men are at work laying a six-inch water line from a railroad company's water line to the city reservoir at the pumping plant. A filtration plant or purification system must be used. It is one of the strictest policies of the city authorities that no water will be turned into the mains until it has not only been treated for purity and clarification, but until the state department of health has made a chemical examination and passed it as absolutely safe for drinking or any other domestic use.

Work Nears Completion
 TEAGUE, June 26.—(Sp.)—Concrete work on highway 75 is rapidly progressing and about 2 1/2 miles remaining on the section from Hog creek. If no delay the road will be completed to crossing of highway 7 in Fairfield the first week in July.

INDIANA WOMAN IS HELD IN CONNECTION DEATH OF DAUGHTERS

LEBANON, Ind., June 26.—(P)—Held for grand jury investigation of the poison deaths of her two daughters, Mrs. John W. Simmons reiterated to officers here today that she had no knowledge of how or by whom poisoned capsules were placed in chicken sandwiches eaten by Virginia, 14 and her 10-year-old sister, Jean, at a family reunion picnic last Sunday.

The woman's husband, refusing on the advice of an attorney to answer questions, returned to his home at Greenfield to await developments. Mrs. Simmons, who prepared the sandwiches, was questioned concerning the fact that some of them were held together with a tooth-pick which came from the mouth of the person who inserted the poison might have used the means to distinguish the poison as a protection against himself.

The victim's mother said she at first placed one tooth pick in all of the sandwiches and later stuck a second one in several when they came apart.

AMBUSHED, SHOT TO DEATH WHILE RIDING IN TRUCK

WEST COLUMBIA, June 26.—(P)—L. G. Lincoff, about 55, was shot to death from ambush, the authorities were told here today on a highway near here.

Wallace Lincoff, the slain man's nephew, who was driving the truck in which the victim rode, said a man rose from a ditch by the side of the road, fired and fled.

The nephew brought the body back to West Columbia and called the county authorities. No motive for the killing could be assigned officially. The Lincoffs were en route to Houston.

Interesting Social Items From Wortham; Goings and Comings

WORTHAM, June 26.—(Sp.)—Mr. and Mrs. George Stubbs of Wortham, were joined by their sister, Mrs. Lynn Adams and her daughter, Miss Mary Katherine of Wortham, and are visiting in Austin.

Mr. and Mrs. John Munroe have as their guests their mothers, Mrs. Sarah Cole of Dallas and Mrs. Munroe of Kosse.

Mrs. B. B. Lucas is in Corsicana visiting her husband, who is a patient in the Navarro Clinic.

Mr. M. Butcher is re-ordered doing nicely from an operation performed ten days ago in Corsicana hospital, and is expected to be brought home today.

Mr. and Mrs. Finis Peyton of Teague visited in Wortham Monday enroute to Dallas. Their children, Tom Joe and Grace Love remained in Wortham to visit relatives and friends this week.

Mrs. R. W. Dial of Teague is visiting in Wortham, the house guest of Mr. and Mrs. Roy Stubbs.

Mr. and Mrs. M. C. Strange left this morning for Meridian, Miss. for a visit with Mr. Stran's mother and other relatives.

Miss Grace Hackney was hostess with a luncheon Monday honoring her guest, Miss Dorothy McGee of Waxahatchie and also Mrs. Ben Nepev of Salina, Kansas, and Mrs. Tom Kirven of Jackson, Miss.

Mrs. W. F. Eckhart entertained Wednesday afternoon with bridge party naming as honorees quite a number of the visitors in Wortham.

Mr. and Mrs. Joe Bates, Dr. and Mrs. K. W. Sneed, joined by Dr. and Mrs. W. R. Snel of Corsicana, made a fishing party for Red Lake Tuesday.

Rev. and Mrs. W. Joiner, Mesdames J. B. Stubbs and K. W. Sneed were Corsicana visitors Wednesday.

Mrs. John Munroe attended a music teachers meeting in Mexia Wednesday.

Mr. and Mrs. J. H. Love and daughter Mrs. Ralph Reed and K. W. Sneed were in Corsicana Wednesday. Mr. Love had special treatment at the Navarro Clinic.

Members of the Junior Christian Endeavor of the Presbyterian church, enjoyed a picnic at the Valley Tuesday afternoon. Mrs. J. W. Joiner, Mrs. S. B. Stubbs and Mesdames P. Stubbs and W. L. Garrett chaperoned the children. All kinds of plays, games and appetizing picnic lunch was enjoyed by the crowd.

Miss Sarah Cole of Sheriman, who has a few days vacation in Wortham spending the time with her parents, Mr. and Mrs. Aubrey Cole.

Dick Lindley is visiting in Lubbock, where he went to accompany Mrs. Lindley and Dick, Jr., home after a month's visit with Mrs. Lindley's parents.

PLEASURE FLYERS RECEIVED WELCOME FROM COPENHAGEN

COPENHAGEN, Denmark, June 26.—(P)—Otto Hillig and Holger Holiris, the first emigrants to America to come back to the old country by air, landed here today and received a rousing welcome home.

It was 2:10 p. m. (7:10 a. m. C. S. T.) when their plane alighted at Copenhagen's airport from Bremen, 240 miles away. They had made the hop in 2 hours and 33 minutes.

"This is the greatest day of my life" said Holiris as he got out of his plane and was picked up by his companions who paraded about with him on their shoulders.

He clasped his mother in his arms, kissed his sister, shook hands with several other members of the family who were on hand to see his triumphal home-coming, and then heard official welcoming words from the lips of Minister Fris Skotts, representative of the government.

It was home for Holiris, for he was born in Denmark, leaving here as a boy to go to America. It seemed like home to Hillig, although he really it was not. He is a native of Steinbrücken, Germany, and as soon as the festivities in Denmark are over he and his companion will visit there.

The flying party had been through a long and arduous journey, many of whom had spent hours there yesterday awaiting news from the fliers while they were making the crossing of the Atlantic from Harbuck, Great New Foundland.

The aviators received more than welcome words. Former Minister Thyge Rothe, acting in behalf of the Aeronautical Society, presented them with the society's gold plaque.

After that ceremony, Hillig and Holiris got in a motor car which fought its way through the crowd to the hotel where they were to stay. Burgo-master Hedeblom welcomed them in behalf of the city of Copenhagen.

Gasoline Jag and Metric System Blamed

BREMEN, Germany, June 26.—(P)—Europe's metric system and a gasoline "jag" were blamed today for the failure of Otto Hillig and Holger Holiris to reach their trans-oceanic flight from America.

When they reached Greifeld both were dead tired but ready to push on. Holiris, however, was so tired that he fell asleep in the car. He had stretched out on a gasoline tank and inhaled such a quantity of fumes that he was about ready to fall under the table—if there had been any table.

To add to their troubles, they forgot momentarily that gasoline is served here in metric liters instead of gallons.

"Pump in fifty," ordered Holiris. The mechanics followed his instructions, giving him about 12 1/2 gallons.

"No, fifty is more than plenty," replied Hillig. "I still under the influence of gasoline."

Once in the car, the two men got them over Bremen without difficulty, but when they continued toward Hamburg they noticed that their tanks were empty. They had to turn around and back toward Bremen and by the time they had landed it was too dark to continue the journey.

Flew Above Clouds Seventeen Hours

LIBERTY, N. Y., June 26.—(P)—Otto Hillig and Holger Holiris, trans-Atlantic fliers, flew through or above clouds and fog for 17 hours and too much of the trip over the ocean yesterday. A brief hint of the difficulties encountered was given in a telephone conversation early today between Hillig at Bremen, Germany, and Otto Hillig, who had just returned home to Liberty.

Klem and a few others put in a long distance call for Hillig at 4:40 a. m., but the report came that the photographer-flier was "not to be disturbed."

An hour later, however, the call was completed and Hillig answered the telephone.

"Hello," said Klemm, "this is George Klemm from Liberty. What was the trouble?"

"We could not see," Hillig answered. "We had clouds for 17 hours and too much fog. We flew high above the fog."

Others who talked with Hillig were Ernest Hoos, Hugh Boreau, and a man named Wright.

"Did you get any pictures?" Wright asked.

"Yes, just a couple," Hillig replied. "There was too much fog."

Accident Victim Lived in Wortham

WORTHAM, June 26.—(Sp.)—Clarence Vernon Lyle, who was killed by his car overturning in city limits of Wortham while enroute from Corsicana to Groesbeck Tuesday morning about 2 o'clock, lived with his parents in Wortham for about eight years. He was one time a student in the Wortham high school. Scores of Wortham friends deplore his accident and his death.

WOMAN FATALITY BURNED

DALLAS, June 26.—(P)—Mrs. Ailbert Sillings of Hutchins, Dallas county, was probably fatally burned today while cleaning clothes when one of her children struck a match, igniting gasoline the mother was using in the work.

ROAD BUILDING ACTIVITY BE HEAVY REMAINDER OF YEAR

HIGHWAYS PLANNED FROM BOND ISSUE EXPECTED BE COMPLETED THIS YEAR

Road activity, including dirt and drainage structures and concrete pavement, will be rushed during the remainder of this year from all indications, and by January 1, 1932, it is expected that practically all of the roads provided for within Consolidated road district No. 1 in the \$2,000,000 bond issue voted in 1927 will be completed or under construction, with a possibility of highways outside of the district being improved and made all-weather affairs.

Contracts were awarded last week by the State highway department to the F. P. McElwath Construction Company of Corsicana for approximately nine miles of Highway 22, from the Three-Way Filling Station to the district line east of Eureka, 18-foot pavement. The McElwath company also was the successful bidder on the approximately 10-mile stretch of Highway 14 and National Highway 75 from a point three miles north of Corsicana to Ennis in Ellis county. There are about nine and one-half miles of this road in Navarro county and about seven miles in Ellis county. The dump and bridges were completed some time ago. No definite time has been announced for the starting of these two projects by the McElwath company, but it is expected that work will start as soon as the necessary contracts, bonds, and other preliminary details have been completed.

Ward Bridge Road
The contract for the dirt and drainage work on the slightly over seven miles from a point in the vicinity of the Magnolia station south to the district line to the Ward Bridge on Richland Creek recently was awarded to a Waco firm by the commissioners court and work is expected to start soon. Dirt and drainage work on the two-mile tie-in from North Beaton street to Highway 75 is under way. This contract is held by W. W. Gage, local contractor.

The commissioners court will open bids Wednesday, July 1, for the concrete pavement, 18-foot slabs, on both the Corsicana-Ward Bridge and tie-in on North Beaton streets.

It is understood that A. F. Mitchell, county engineer, has been authorized by the State highway department to make surveys on Highway 31 west with the view of the contemplated turning of an all-weather road west from the present end of the Purley district slab about fifteen miles west of Corsicana to Dawson and to the Hill county line. It is thought that the proposed route may follow the old road to the end of the Purley slab at Parishville and then swerve westward prior to reaching Griffin to cross Battle Creek east of Dawson. It has also been mentioned that the route may eliminate the Cotton Belt crossings in Dawson, crossing on the south side of the railroad through Dawson and connecting with the present route in the western outskirts of that community.

Seek Outlet to West.
Nothing definite has been learned concerning the plans of the State department on the above plans, but it is a well-known fact that the State highway department, particularly Hon. C. C. Johnson, member of the highway commission, is especially desirous of procuring an all-weather road from Waco to Tyler via Corsicana, and there is a possibility of such a procedure as outlined above.

With the completion of the 18-foot slab from Corsicana to Ward Bridge, connecting with the Purley 8-foot slab of seven miles, a concrete highway more than half way from Corsicana to the Hill county line will be available. The road situation in the Purley road district is unchanged. That district voted bonds in the sum of \$135,000 several years ago with the plan of constructing a 8-foot slab from the end of the Corsicana-Corbet lateral to Richland creek three miles east of Dawson via Purdon, but the bonds have been attacked in the courts for several years, and some time ago the local district court ruled that \$15,000 of the bonds were invalid and validated \$120,000 of the bonds. It is known that an effort was contemplated to attempt to vote off the bonds in the district, but no suits or procedure was inaugurated in the courts.

Purdon Bonds Unsold.
The commissioners' court advertised recently for the sale of this district's bonds, but no bids were received and bond buyers are frankly not especially interested in the bonds due to the small amount of bonds, a small district, and the threatened and feared litigation that may ensue. The state highway department suggested that an all-weather road would be constructed from a point two miles north of Purdon to a point one half mile north of Dawson along the designated route for Highway 31, and then make an all-weather road from Dawson to the Hill county line, routing the traffic through Purdon and Corbet, but nothing has been done in that direction by county officials since the bonds were not bid on recently. There was some talk relating to a contractor taking the bonds and building the roads, but that procedure was said to be unlawful, and it did not pass the discussion stage.

Nothing has been done recently relative to the pavement of Highway 31, East from Corsicana. Money is available for the construction of the 18-foot concrete pavement to the eastern boundary line of Consolidated Road District No. 1 east of Powell. Just what the state highway department will do with the remaining distance to the Trinity river this year has not been indicated, but an all-weather road is anticipated.

Trinity Bridge Opened.
The \$250,000 bridge spanning the Trinity river between Navarro and Henderson counties, was recently completed and formally opened. Traffic is now going over this new dump from Corsicana to Athens and points east, but no indication has been made by state highway officials as to when con-

Boerse is Weakened By French Parley

BERLIN, June 29.—(AP)—The Boerse opened weak today as a result of uncertainty regarding the outcome of the Paris negotiations and the continuance of the demand for foreign currency. Declines as high as 10 points were registered before news that the demand for foreign currencies was not as great as first reported injected a steadying influence. The close was irregular.

AROUND THE WORLD FLIERS FACE MILES OF OCEAN FLIGHT

(Continued From Page 1)
Mae shot into the air, circled twice and shot eastward in the approach to the Japanese weather report said mist and clouds south of Kamchatka cleared considerably in the late afternoon. There was a light easterly wind but in the vicinity of Saghalien Island, which they had to cross, clouds, rain, thunder and lightning were reported.

Tear Gas Is Used Against Paraders

PITTSBURGH, June 29.—(AP)—The gas was used by coal and iron police today against three truck loads of striking miners who attempted to parade at Ellsworth in violation of an order of the Burgess state police, under orders of Governor Gifford, which not to interfere with peaceful gatherings on public roadways, refused to join the coal and iron police. The strikers were compelled to reenter their trucks and leave the town.

Tracts will be made on this highway in Navarro and Henderson counties. Funds are available for the county's part in Consolidated Road District No. 1 since the recent sale of the remaining \$600,000 bonds. County officials state that they hope the road will be awarded to the contractor, but do not have definite assurance.

On the proposed road west via Purley slab to Dawson, it is thought the highway department merely wishes to make this an all-weather road for temporary use of traffic until the main road—that via Purdon sector—can be realized, and that the other route is not being considered.

Richland-Wortham Sector.
No definite assurance has been made as to the time the contract on Highway 24, from Richland to the Purley-Lincoln county line south of Wortham, for pavement will be let. State officials have said that a peculiar soil condition has been encountered, and that they are at present studying the concrete pavement down at the present stage of the dump. Considerable buckling and trouble with concrete slabs has been experienced in Limestone county north and west of Mexia, and it has been intimated that a gravel cushion may be placed under this slab in an effort to correct the tendency to buckle.

The slightly more than three miles on Highway 14 and national Highway 75, through the city of Corsicana, may be paved with concrete. Consolidated Road District No. 1 will have ample funds to complete all roads called for in the bond petition, and there is a possibility that there may be a small surplus.

According to present plans of county officials, there is a likelihood that a trestle will be constructed in Richland creek bottom near the intersection of the old highway. County officials state that from the prices being procured on highway construction at the present time, Consolidated Road District No. 1 will have ample funds to complete all roads called for in the bond petition, and there is a possibility that there may be a small surplus.

FARM BOARD URGED HOLD STABILIZATION WHEAT OFF MARKET

(Continued From Page 1)
stabilization wheat for its starving probably would be the solution, he added.

Meanwhile conferences and studies were underway at the farm board on President Hoover's suggestion.

George S. Milnor, president and general manager of the Grain Stabilization Corporation in Chicago, spent several hours with Chairman Stone.

A pledge to hold the wheat off domestic markets has been asked of the country's farmers and grain traders who say it would improve prices.

The present policy is to handle the 200,000,000 or more bushels in a way "not to depress world or domestic prices."

The storage charges for holding the wheat for a year was estimated at \$36,000,000 for the 200,000,000 bushels.

Much Wheat at Fort Worth
FORT WORTH, June 29.—(AP)—Two-day receipts of 775 carloads of wheat on the Fort Worth market Monday started what was expected by the trade to be one of the big weeks of the new crop year.

Total receipts here last week—the first to mark a heavy movement of the new wheat—were 1,246 carloads.

Cash payments for Sunday and Monday receipts were estimated at \$625,000 while about \$1,000,000 was paid out from Fort Worth to grain shippers.

Inflow of the new grain has brought employment at fair wages to approximately 125 men in this city, the inspection and laboratory departments of the Fort Worth grain and cotton exchange are counting for about 20 of these and the different elevators and mills for the others.

Saturday's receipts showed a total of 6,600,000 bushels of wheat in storage here with capacity less than half taken up.

Curtis Favors Holding
TOPEKA, Kans., June 29.—(AP)—Vice-president Charles Curtis has urged the federal farm board to withhold the grain stabilization corporation's wheat holdings from the market until the price advances to from \$5 to \$1 a bushel at Chicago.

Curtis said today he had forwarded his suggestions to the farm board and to President Hoover after a visit into North central Kansas, where he received "hundreds of letters" from wheat growers and others in southwestern Kansas.

Wheat Pours Into Kansas City.
KANSAS CITY, June 29.—(AP)—New wheat poured into Kansas City over the week-end in a volume which grain men declare has never been equaled in previous years.

The official report of receipts between 8 a. m., Saturday and 8 a. m., Monday was 1,213 cars, most of them from Kansas with scattered amounts from Oklahoma and Texas.

The earliness of the movement of wheat is indicated by the fact that during a corresponding period last year receipts amounted to 533 cars, two years ago to 621 cars, and three years ago only 283 cars.

Advices from loading stations in the Southwest today indicated wheat is continuing to move from the region in a swelling volume, despite prices which are the lowest of the century.

The quality of wheat arriving here was excellent.

CONFERENCES OVER DEBT MORATORIUM CONTINUE MONDAY

(Continued from Page 1)
pletely within the purpose of the chief executive's proposal.

"No agreement has yet been reached with France for the reason there are still some technical points to be settled," Castle said in a formal statement. "The United States will accept no offer that is not in the spirit and purpose of the president's proposal."

The statement was issued after the acting secretary talked by trans-Atlantic telephone with Secretary Mellon in Paris.

Because of a bad connection the conversation was unclear, but it afforded Castle sufficient information on the progress of Franco-American negotiations in Paris for him to give a report to President Hoover upon his return from the Raplaan.

Castle declined to comment further on the negotiations. Authoritative circles cautioned, however, that the statement should not be taken as reflecting pessimism.

The United States has opposed the French suggestion that Germany on July 1, 1932, pay two years' unconditional annuities. The French proposed that Germany pay the regular unconditional annuities but that they be returned for Germany's use during the moratorium under credits being chargeable for the full sum for 1931 and another year's on July 1, 1932.

Such a burden, Secretary Mellon has contended, would be too great and would not fall within the spirit of the president's proposal.

It was said no payments were due on inter-governmental debts between July 1, the time when the president suggested the moratorium, and July 15, so that a delay in the Paris negotiations would not be detrimental to the president's plan.

COURTHOUSE NEWS

District Court.
The April term of the Thirteenth district court was concluded Saturday night and this week is vacation week.

The July term of the district court will be opened Monday morning, July 6, with the empanelling of a grand jury by District Judge Hawkins Scarborough.

The following have been summoned as grand jurors: S. W. Burdine, Corsicana; I. H. Jordan, Dawson; J. O. McSpadden, Blooming Grove; M. H. DeWitt, Corsicana; B. A. Todd, Richland; J. I. Bell, Dawson; R. L. Nolen, Zion's Rest; C. M. Brown, Richland; J. W. R. Smith, Rice; L. P. Tilton, Angus; R. D. Owen, Kereks; J. F. Slater, Frost; I. W. E. Harrington, Embouse; S. A. Renfro, Dawson; H. H. Hanke, Powell; W. E. Wodall, Purdon.

District Clerk's Office
The following case was filed: Ross Milburn Phillips vs. Cora Maie Phillips, divorce.

Probate Court.
County Judge Clay Nash was busy Monday morning with probate matters.

Commissioner's Court.
The county commissioners court was still in sitting as a board of equalization Monday and will continue through Tuesday. The regular bi-monthly meeting of the court will be held Wednesday.

Bids are due to be received for the 18-foot concrete pavement on the Corsicana-Ward bridge lateral road and for the tie-in road from North Beaton street to National highway 75 Wednesday.

County Clerk's Office.
The following case was filed: Jack Michaels vs. Sinclair Refining company, a corporation, debt.

Sheriff's Office.
Two white men were arrested Saturday afternoon by Sheriff Rufus Fevchousky and Deputy Sheriff Jack Floyd in connection with an altercation in which another man is reported to have received a knife wound, officers reported Monday. The wounded man is not thought to be seriously injured.

The two men were charged by complaint with alleged aggravated assault in connection with the drunkenness charge.

Constable's Office.
During the past week, the constable's department reports the following arrests:

Drunkness, 2; swindling with worthless checks, 5; vagrancy, 2; liquor law violations, 2; reckless driving, 1; choc beer, 2; theft, 1; and affray, 4.

Constable C. P. Brooks Monday announced the appointment of two deputies as follows: Perry Dillard and G. B. Powell, both of Corsicana. The two new deputies have already assumed their duties.

Justice Court.
Judge J. L. Cox assessed a fine against a person Sunday on a charge of drunkenness and Judge W. W. Clopton fined two on charges of vagrancy during the week-end.

Woman Found Ill From Poisoning In El Paso Hotel

EL PASO, June 29.—(AP)—A young woman who said she lived at Oklahoma City and was 24 years old, was treated at a hospital here, today for poisoning after roomers at a hotel had heard her cry for help. She gave the name of Ethel Len.

"I came here looking for work, but I couldn't find any," she said. "My money gave out Sunday. There wasn't any other way out. I was desperate and wanted to die because there was nothing to live for."

She told attendants she had relatives in Oklahoma City and a sister at Anson, Texas, 52 years old, who wanted them notified. Physicians believed she would recover.

SEVENTH DAY OF HEAT WAVE FINDS TEMPERATURE HIGH

(Continued from page 1)
Indiana and Ohio felt the cooling patter of rain.

In Cincinnati thunder storms left a cool 72. Rain clouds over Cleveland held hopes of relief. Over Northern Indiana, showers dissipated ten days of 100 degree welter and left a widespread area of cooling 70s. The week-end heat prostration deaths in the Hoosier state totaled 26.

New York City, other eastern points and the far Pacific coast were cool. Elsewhere summer's scourge attacked with renewed fury.

Over Iowa and Nebraska the Sun blazed hotter hourly. Six died in Iowa Sunday, a total of 27 for the week.

Duluth was cool but the rest of Minnesota roasted. Four fatalities were reported.

Twelve persons died in St. Louis yesterday and today from prostrations. No relief was in sight. It was 93 at Kansas City at 10 a. m.; 85 in Dallas.

Tyler Heat Fatality.
TYLER, June 29.—(AP)—The first heat fatality of the season in Texas resulted near here today when Ed Store, 63, dropped dead while working in a cotton field. He had just returned to the field after getting a drink of water.

(By The Associated Press.)
Much of the nation was moving feebly today against the seventh consecutive day of oven-like temperatures.

From the Rockies to the Atlantic seaboard, from a short distance below the Canadian border to the gulf, the heat bore down with merciless impartiality. There was scant hope for relief before Tuesday.

Upward of 200 have died during the current wave. Cattle were reported dying in the fields of Iowa, Illinois and other middle-western states, which are bearing the brunt of the soaring temperatures. In Iowa the crops were suffering what agricultural experts termed an "irreparable damage."

At least 46 persons died yesterday in Illinois where the thermometer hovered around the century mark. In Chicago alone 30 deaths were attributed to the heat. In other middlewestern states the death list mounted.

Temporarily relief came to some sections of the northern states—the Dakotas, Minnesota, and Northern Michigan—in drizzling rain, but no general showers served to alleviate the blistering heat. Millions throughout the nation sought relief at beaches, where many were drowned.

Continued warm weather for Illinois, Iowa, Missouri, Indiana,

Daily Delivery Service of Daily Sun Extended

The residents of the Kerns, Powell and Roane communities are now receiving the Daily Sun the afternoon of publication.

The new motor delivery route, carried by Frank Bulcher, has recently been established and the Sun is now in the homes of this section shortly after publication.

This new delivery service is in addition to the routes that cover Wortham, Teague, Richland, Fairfield, Angus and other points south. Another route extends north to Embouse.

As roads are completed the Sun circulation department will establish routes making the daily available to all in the Central Texas area the day of publication.

Besides the full leased wire of the Associated Press, the Sun carries all the local news and many high priced features including a page of the best comics available.

The regular edition of the Sun each afternoon also carries the New York stock list, sales, high and close as well as cotton, grain, livestock and produce prices.

Wisconsin and other central states were predicted. There were possibilities of local thunderstorms in Northern Wisconsin, Western Minnesota, and Central Iowa.

Temperatures in Kansas and Oklahoma ran around 100, with Altus, Okla., having 103. The northern Rocky Mountain area was hotter than usual, with the southern mountains having temperatures unusually common.

There were four deaths in St. Louis and one in Kansas City.

Thirty-Three Died in St. Louis
ST. LOUIS, June 29.—(AP)—Twelve deaths from heat exhaustion in St. Louis today and yesterday brought the total in the metropolitan area to 33 since June 18.

Storm Is Exhausted
CORPUS CHRISTI, June 29.—(AP)—A quick return to normalcy had been affected along the Texas gulf coast today as residents learned a tropical disturbance which had been lashing about in the Gulf of Mexico for several days, yesterday exhausted itself a short ways inland in a casual manner.

VICTIMS TRAIN AND AUTO CRASH ARE BURIED HERE

(Continued From Page 1).
services were conducted by the Rev. W. R. Hall, pastor of the First Presbyterian church here.

Surviving are his mother, Mrs. George Ross, Wortham; one brother, Clyde Ross, Wortham; a daughter, Miss Joyce Evelyn Ross, Beaumont; two sisters, Mrs. Lillian Matthews Tehuacana; Mrs. Repta Lee Jennings, La., and a number of other relatives. Clay Nash, county judge, is a cousin.

Mr. Ross was one of the best known salesmen in Central Texas and had been traveling for the Stroud-Dockum Wholesale Grocery company here for a number of years.

Mr. and Mrs. Ross were rushed to the Ennis hospital in the Keever ambulance.

The funeral here Sunday and Monday afternoons were conducted by the Sutherland Funeral Home.

Funeral services for Mr. Ross' funeral were W. T. Ball, Z. F. Banks, Clarence Mahaley, C. B. Turner, J. W. Carroll, J. B. Harper, Robert Stell, Sr., and Ralph Stell.

Lewis E. Dugger
In Revival Meeting
Lewis E. Dugger, Churches of Christ minister in the county, is to begin a revival in the Max Avenue Methodist church tonight at 8 o'clock. Services will continue every night throughout the week. Verna Howard will have charge of the song service. Everyone is invited to attend these meetings.—Reporter.

**Modified Plan For
Oil Merger Removes
Stocks From Curb**
NEW YORK, June 29.—(AP)—The modified plan for merging Vacuum Oil company and Standard Oil of New York today led the New York curb exchange to order the cancellation of all transactions in "General Petroleum corporation" on that market.

It was originally proposed to first change the name of the company embodying the consolidation, but the corporate title decided on last week, when the new merger terms were announced, is "Socony-Vacuum corporation." The exchange will be on a basis equivalent to two and a half shares of Standard for one of Vacuum, whereas the original plan had called for three for one.

SICK AND CONVALESCENT.
Mrs. J. Silverberg and babe were taken to their home from the P. and H. hospital Monday.

J. O. Rivers, Ennis, former resident of Corsicana, was brought to the P. and H. hospital Monday in the Sutherland ambulance for a medical examination.

Miss Ethel Bruce, stenographer in the county attorney's office, who underwent an operation at the P. and S. hospital several days ago, is reported improving rapidly.

Mrs. W. B. McAlester, who underwent an operation in Baylor hospital in Dallas last Friday, was reported resting well Monday and will probably be able to be brought home later in the week.

Dr. E. F. Norwood was reported resting well at the Baylor Clinic Monday afternoon after being operated on for appendicitis Saturday afternoon.

E. Y. Cunningham underwent an operation for appendicitis at the Navarro Clinic Monday morning.

Cotton Prices Up 200 Points

Other Markets Sharply Advanced

ST. LOUIS, June 29.—(AP)—Cotton prices today advanced 200 points, or 10 cents, to 10.00 a pound.

Other markets were also advanced. Wheat advanced 10 cents to 1.10 a bushel.

Gold advanced 10 cents to 100.00 a dollar.

Silver advanced 10 cents to 1.10 a dollar.

Iron advanced 10 cents to 1.10 a ton.

Copper advanced 10 cents to 1.10 a pound.

Lead advanced 10 cents to 1.10 a pound.

Zinc advanced 10 cents to 1.10 a pound.

Nickel advanced 10 cents to 1.10 a pound.

Aluminum advanced 10 cents to 1.10 a pound.

Steel advanced 10 cents to 1.10 a ton.

Timber advanced 10 cents to 1.10 a cord.

Grain advanced 10 cents to 1.10 a bushel.

Oil advanced 10 cents to 1.10 a barrel.

Gas advanced 10 cents to 1.10 a cubic foot.

Coal advanced 10 cents to 1.10 a ton.

Iron ore advanced 10 cents to 1.10 a ton.

Flour advanced 10 cents to 1.10 a barrel.

Sugar advanced 10 cents to 1.10 a pound.

Coffee advanced 10 cents to 1.10 a pound.

Tea advanced 10 cents to 1.10 a pound.

Spices advanced 10 cents to 1.10 a pound.

Herbs advanced 10 cents to 1.10 a pound.

Beauty Chats

By Edna Kent Forbes

All requests for beauty information desired by Edna Kent Forbes column followers must be accompanied by a fully self-addressed, stamped envelope (s. a. s. e.) and two cents in stamps to cover cost of printing and handling.

For the illustrated pamphlet, "BEAUTY," ten cents in stamps with fully s.a.s.e. must be enclosed. Address Miss Forbes in care of this paper.

LONG LASHES

You can easily make your eye-lashes long, or you can make them look as though they were long by the use of cosmetics. I advise you to use both methods. Let's consider the sensible way first.

You can use olive oil on them every night. No matter what method you have used for cleansing your skin at bedtime, whether it is soap and water or cold cream, the very last thing would be to take a large drop of olive oil on the thumb and rub the eye-lashes with the thumb and for finger. This will pull them very gently, which is good for them, and which will also work the olive oil into them. Oil will not the yes fell heavy as a thick sticky cream would do.

Still another way is to get from your druggist a salve made from one per cent yellow oxide of mercury. Physicians recommend this for granulated eyelids and such troubles, as it is also healing and preventive. It is also very good for the eye-lashes, and it really is an ideal cosmetic. If your eyes are strained, or if the eye-lashes become red and puffy, this will prevent and a cure. If, while you're using it, you can clip off the ends of the eye-lashes, you will find they grow in much stronger and probably longer.

Otherwise, make up the eye-lashes as we suggested the other day, brushing the regular black mascara on them with a small brush that comes for the purpose, and using the color only to emphasize the tips of the lashes. This must be carefully removed at night with water and oil, or the mercury ointment must positively be put on the lashes afterward.

A cosmetic which is not drying at all is my very simple one—soot and vaseline. You can collect all the soot you want by holding a candle under a piece of glass and scraping it on a saucer as it collects. Mix with a little white

Here's How to Make Your Eye-lashes Long

vaseline to form a paste and keep it in a jar. Take a tiny bit between the thumb and forefinger and spread along the tips of the eye-lashes.

Louise N.—Since lemon juice will not keep your hair as light a shade as you wish, the only thing you can do is to bleach it. Light brown hair that is without much character is very much improved if given a henna shampoo, leaving the latter remain on the hair just long enough to give a slight tint. It will take about 20 minutes for very fine hair to be tinted in this way and probably twice that time for very coarse hair. There should be very little change in the real color of the hair, but there will be enough color of the tinting to give the impression of vitality.

BROOKLYN ROBINS HAVE FINALLY HIT STRIDE, BUMP CARDINALS

ATHLETICS GAIN
GROUND AS SENS
SPLIT TWIN BILL

BRAVES ROUT CUBS; YAN-
KEES CONTINUE WINNING
STREAK SUNDAY

BY HUGH S. FULLERTON, JR.
(Associated Press Sports Writer)

The Brooklyn Robins have had a hard time trying to live up to the predictions made about them. Apparently strengthened by off-season trades, the Robins were expected to jump right into the thick of the pennant race, but starting off badly and have only recently begun to show what they really can do.

About two weeks ago, the Robins began to hit their best stride. Since then they have lost only one game, a "hard luck" which went to the St. Louis Cardinals despite Dazzy Vance's three hit pitching.

The Robins looked like champions yesterday as they easily trounced St. Louis 10 to 4. Ancient Adolfo Luque gave ten hits and became the seventh Brooklyn pitcher to go the route in ten games.

The defeat cut the Cards' margin to 11-2 games before the start of a series with the second place New York Giants. The New Yorkers closed the Cincinnati Reds for a double victory yesterday, winning the first game 17 to 5 and taking the second clash 5 to 2.

Braves Trample Cubs.

The Boston Braves completed their conquest of the Chicago Cubs by slamming out a 9 to 1 victory in the first half of a double header and came from behind to earn a 2-2 tie just before the Sunday six o'clock game.

The St. Louis Browns continued their amazing winning streak in the American league by taking two 5 to 4 decisions from the Boston Red Sox. It gave them a record of eight straight victories and eleven in their last 12 games.

Philadelphia's Athletics increased their margin over Washington to 21-2 games by winning two games from Detroit while the Senators could get only an even break in two mound duels with the Chicago White Sox.

Babe Ruth hit his 17th home run and Ben Chapman stole his 26th base for the New York Yankees, the combination helping considerably to bring a 9 to 5 victory over Cleveland.

Bi-Stone Orchestra Makes Good Music

TEAGUE, June 29.—(Spl.)—One of the most entertaining musical organizations of this section of Texas is an orchestra composed of Teague and Mexia musicians, being known as the Bi-Stone Orchestra.

The orchestra is composed of Allen Jackson, Reid Galt, Beaumont, Jack Seagraves, Weldon Owens, Harry Glynn Hipple, Everett McClintock and Miss Mary Moore.

"Fore" At Inverness

By HARDIN BURNLEY

JOSE JURADO...
SPEEDY-SWINGING
ARGENTINE FLASH
WHO STARRED IN
BRITISH OPEN PLAY!

"MAC" SMITH...
THE HARD
LUCK CHAMP
WHEN IT COMES
TO WINNING
MAJOR
TITLES!

ELEVEN years ago Ed Ray of England won the U. S. Open Golf championship on the Inverness course, Toledo, O., by a single stroke. No foreigner has won that title since; but Thursday, Friday and Saturday of this week experts making brilliant bids for that crown over the same course where Ray and Harry Vardon thrived in 1920.

Britain's most serious threat would seem to be the spectacular Henry Cotton. The Argentine's ace—the popular Jose Jurado—who had the British Open all but in the bag up to the last two holes, will also try for Uncle Sam's chief links laurels.

Most significant of all from the

fan viewpoint will be Tommy Armour's efforts to establish himself definitely as the real successor to Bobby Jones. If he can add the National Open to his British Open trophy, Armour certainly will merit that accolade. Tommy also holds the American P. G. A. and Canadian Open championships. The World War scared Scott won the Open in 1927. He will be the favorite to win at Inverness, but at golf that's equivalent to a jinx which only a Jones could break, some say.

The colorful little Jurado with the fast swing, who led the British Open field by five strokes at the three-quarters stage, should shine again and maybe win if he can avoid those "last hole blow-ups" which cost him the crown at Carnoustie. His fellow-Argentine, Marco Churio and Tomasco Genta, may startle as dark horses.

Back in 1910 MacDonald Smith tied with Aleck Smith and J. J. McDermott in the U. S. Open, Aleck winning the play-off. "Mac" has tried many times since but he has yet to win a major title. Perhaps Inverness may crown his quest. Mentioning the Smiths, it occurs that Horton—no longer favored in the betting—may realize the major championship goal he's been aiming at for more than two years.

And don't forget Gene Sarazen in doping Inverness prospects. He won that Open in 1922 and may repeat this week.

HEAVYWEIGHT FIGHT NOT EXPECTED DRAW MILLION DOLLARS

HALF THAT AMOUNT WOULD
PLEASE STRIBLING-SCHMEL-
ING BOUT PROMOTERS

BY CHARLES DUNKLEY
(Associated Press Sports Writer.)

CLEVELAND, June 29.—(AP)—The Stribling-Schmeling world's heavyweight championship fight dedicating Cleveland's new \$3,000,000 municipal stadium next Friday night will be no million dollar affair, but if it draws \$400,000 there will be no wails of protest from the promoters.

This was indicated today when officials of the Madison Square Garden corporation of Ohio declared they would be "extremely satisfied" if the gate receipts hit the \$400,000 mark. Figures revealed for the first time showed \$178,000 in cash already in the bank, with \$89,000 to be added in reservations certain to be picked up.

The advance sale counting reservations, amounts to \$265,000, thus assuring financial success for the fight. The promoters hope to dispose of another \$150,000 worth of tickets between today and Friday.

If the fight draws \$300,000 which it already seems assured the Madison Square Garden corporation will have a profit of approximately \$51,000. Stribling and Schmeling will get 52-1-2 per cent, with the champion receiving 40 per cent of this amount.

Both Stribling and the champion were resting today, their hard training finished. Except for a little boxing tomorrow—night Stribling finished his five weeks training grind last night with four rounds of boxing, another round shadow boxing, and still another punching the bag. He worked out before 3,500 spectators, the largest crowd that had seen him in action since his camp was opened. After hitting the showers Stribling jumped on the scales and tipped the beam at 188 pounds, which is the weight he hopes to carry in the ring when he meets the German title holder.

Crowds Watch Schmeling.

Schmeling worked out before a crowd of 4,317 spectators who paid one dollar admission to his camp at Conneaut Lake Park. His work was impressive and heartily satisfactory to his handlers. The German boxed four rounds, three against George Panka, Pittsburgh heavyweight, and the last against Tony Marullo, the New Orleans veteran. Schmeling set a burning pace and smiled a wide open, toothy smile of thanks for the hearty greeting accorded him by the largest crowd that ever jammed his training camp.

The referee question was the important issue of today, with the Cleveland boxing commission meeting to make its decision on the third man in the ring and the judges. Dick Dunn, representing the Madison Square Garden corporation of Ohio, indicated to appear before the commissioners and demand that the officials be named before tonight. In some quarters it was reported that Tommy McGinty, Cleveland sports promoter, would be chosen as referee, but that his selection may be withheld officially until the day of the contest, although some of the commissioners are reported to favor making the announcement at once. Other reports were that George Blake of Los Angeles, noted boxing instructor and manager of Fidel LaBarba, featherweight championship contender, would be chosen as the referee.

Children's Books, games, toys for birthdays.—City Book Store.

A BULL DOES SOME THROWING

Reversing the usual order of things an infuriated bull did some fancy throwing in the arena at Madrid, Spain, as this highly interesting picture shows. When a horse and picador sought to escape the maddened animal in its ferocious rush at them they didn't fare so well, the bull catching horse and rider on his horns and sending them flying skyward. Kings may be banned from Spain, but there's nothing to prevent a bull from upsetting his adversaries every once in awhile.

Former Corsicanan Completes Course in Branches of Radio

Guy H. Peebles, care Jetty Light Station, Southwest Pass, Burrwood, La., formerly of Corsicana, has completed his course in Practical and Theoretical Radio and has been awarded a diploma by the National Radio Institute of Washington, D. C. He finished the prescribed course of technical studies with creditable grades, and is to be congratulated upon his achievement. His training covered all branches of Radio including Receivers, Transmitter, Public Address Systems, the latest developments in A. C. circuits and Screen Grid tubes, Television and Talking Movies. Special emphasis was given to the design, construction, installation and service of Radio receiving sets.

SPORT NOTES

By PAUL MOORE Daily Sun Sports Editor

Houston kicked Fort Worth out of the running in the first half of championship struggle Sunday afternoon by winning two games. Dizzy Dean, recently returned to the Bufts by the St. Louis Cardinals, went the route in the two games, allowing only seven hits in the first game and only three in the second. Beaumont won a twin bill with Wichita Falls and remained in a deadlock with the Bufts. The season for the first half closes with the games Tuesday night.

Home run hitters Sunday included Lepp, Dallas; Nash, San Antonio; Jones, Dallas; Holey, Beaumont; Schuble, Beaumont; Williams, Philadelphia Athletics; Webb, Boston Red Sox; 2; Ruth, New York Yankees; Winegarner, Shreveport; Ott, New York Giants; Leach, New York Giants; Stripp, Cincinnati; Lindstrom, New York Giants; Crabtree, Cincinnati; Collin, St. Louis Cardinals.

St. Paul, leader in the American Association, is only six games ahead of Kansas City, cellar club. This race has been a torrid one for weeks. Birmingham, pacesetter in the Southern association, is

Jim Londos Will Defend Title Against Ray Steele Tonight

NEW YORK, June 29.—(AP)—Jim Londos, regarded by the New York state athletic commission as the world's heavyweight wrestling champion, defends his title against Ray Steele at the Yankee stadium tonight. One quarter of the receipts goes to the milk fund, sponsored by Mrs. William Randolph Hearst.

The match is the first big one ever to be held outdoors in New York. Jack Curley, the promoter, estimates that the proceeds will exceed \$200,000 exceeding the record gate of \$94,000 set by Frank Gotch and George Hackenschmidt in their Chicago match in 1911. Indications point to a crowd of 50,000.

Londos will weigh 220 while Steele will scale at 214. Londos is 5 feet 8 inches while Steele is six feet.

The titular match between Tom Pinkston and Charley Holloway for the club championship in the Country club tournament Tuesday promises to be one of the features

Brides' Jewelry
